Columbia University in the City of New York

GENERAL STATEMENT

HISTORICAL

On October 31, 1754, Letters Patent were issued incorporating THE GOVERNORS OF THE COLLEGE OF THE PROVINCE OF NEW YORK IN THE CITY OF NEW YORK IN AMERICA and providing for the establishment of a College to be known as King's College "for the Instruction and Education of Youth in the Learned Languages and in the Liberal Arts and Sciences." The conclusion of the announcement issued in the same year reads: "A serious, virtuous, and industrious Course of Life being first provided for, it is further the Design of this College to instruct and perfect the Youth in the Learned Languages, and in the Arts of Reasoning exactly, of Writing correctly, and Speaking eloquently; and in the Arts of Numbering and Measuring, of Surveying and Navigation, of Geography and History, of Husbandry, Commerce, and Government; and in the Knowledge of all Nature in the Heavens above us, and in the Air, Water, and Earth around us, and the various Kinds of Meteors, Stones, Mines, and Minerals, Plants and Animals, and of every Thing useful for the Comfort, the Convenience, and Elegance of Life, in the chief Manufactures relating to any of these things: And finally, to lead them from the Study of Nature, to the Knowledge of themselves, and of the God of Nature, and their Duty to Him, themselves, and one another; and every Thing that can contribute to their true Happiness, both here and hereafter." The educational work of the College was at once begun under the presidency of Dr. Samuel Johnson with a class of eight students and the first Commencement was held on June 21, 1758. The first college building, erected on a portion of the "Kings Farm," at what is now the corner of Park Place and Church Street, was completed in 1760. The Revolutionary War, during which this building was taken for military purposes, compelled a suspension of activities. King's College numbers among its students and graduates Alexander Hamilton, John Jay, Robert D. Livingstone, Gouverneur Morris, and John Stevens.

In 1784, the Legislature of the State of New York passed an act incorporating the "REGENTS OF THE UNIVERSITY OF THE STATE OF NEW YORK," vesting the property of King's College in the Regents, and changing the name of the College to Columbia College. In 1787, this act was repealed, and an act was passed, confirming the Royal Charter of 1754, and vesting the property and franchises of King's College in "The Trustees of Columbia College in the City of New York."

In 1810, the charter was again amended in certain particulars at the request of the Trustees, and re-enacted, but the corporate title remained the same until 1912 when by order of the Supreme Court of the State of New York it was changed to "The Trustees of Columbia University in the City of New York." In 1897 the University removed from Forty-ninth Street and Madison Avenue, where it had been situated since 1857, to its present location on Morningside Heights.

BUILDINGS AND GROUNDS

The general plan of the buildings of the Corporation on Morningside Heights comprises three groups, the principal one of which occupies the site on the northerly side

of 116th Street, extending to 120th Street, and another, the site on the southerly side of 116th Street, extending to 114th Street, bounded on the east by Amsterdam Avenue, and on the west by Broadway, and the third, the block bounded by Amsterdam Avenue, Morningside Drive, 116th and 117th Streets. The University Library is of Indiana limestone. The other buildings, in conformity to the general design, are constructed of overburned brick and limestone, set as is also the Library, upon a base of granite. A model of all the University buildings (20 ft. x 35 ft.), now existing and as projected, and showing the buildings in detail and in their relation to each other, is on view in the basement of Kent Hall.

To the east of the northerly group of buildings are PRESIDENT'S HOUSE, FACULTY HOUSE (80 ft. x 82 ft.), erected 1922, CROCKER RESEARCH LABORATORY, the green-houses belonging to the departments of botany and agriculture, JOHNSON HALL (201 ft. x 52 ft.), a residence hall for women, erected 1924; and on the north side of 117th Street, COLUMBIA HOUSE, the gift of Edward D. The DEUTSCHES HAUS, at 423 West 117th Street is a center of information and contact for German and American academic relations.

On the west side of Claremont Avenue, between 116th and 120th Streets facing Barnard College, the University purchased in 1920 four apartment houses, ten and eleven stories high, of modern construction and equipment, for the use of university officers. ORGANIZATION

The title to all corporate property is vested in a board of twenty-four Trustees whose term of office is for life, and who form a self-perpetuating body, exercising the power of appointment as to all officers of instruction and administration and general oversight and control of the affairs of the University. In 1909 provision was made for the nomination by the Alumni of six of the twenty-four Trustees.

The duties of the President of the University and other administrative officers, the composition and functions of the University Council, and the organization and jurisdiction of the Faculties, are defined by the Statutes of the University, Chapters I, II, III, V. See Index.

SCHOOLS AND COLLEGES

The Schools and Colleges composing the University are as follows: Columbia College, the Schools of Law, Medicine, the Schools of Mines, Engineering and Chemistry (Faculty of Applied Science), the Graduate Faculties of Political Science, Philosophy and Pure Science, Barnard College, Teachers College, the School of Architecture, the College of Pharmacy, the Schools of Journalism, Business, Dentistry, Nursing, Library Service, St. Stephen's College, University Extension, and Summer Session. The organization is set forth in the University Statutes, Chapters IX-XXV, XXIX and XXX, and the curricula and regulations in the school statements. See Index.

DEPARTMENTS AND DIVISIONS

The several departments of study maintained by the University are grouped for administrative purposes in Divisions. See Chapter IV of the University Statutes.

GENERAL REGULATIONS

STUDENTS

Each person whose registration has been completed will be considered a student of the University during the period for which such registration is held valid. No student registered in any school or college of the University shall at the same time be registered in any other school or college, either of Columbia University or of any other institution, without the consent of the appropriate Dean or Director.

A student accepted and registered by the proper authorities as having fulfilled the preliminary qualifications for candidacy for a degree, certificate of proficiency, or diploma is enrolled as a matriculated student of the University. A period of regular attendance upon all stated academic exercises amounting to at least one academic year must be completed by every candidate for a degree.

A student not enrolled as a matriculated student may enter the University as a non-matriculated student, and be permitted to attend such courses of instruction as he is qualified to take, but not as a candidate for a degree, certificate of proficiency, or diploma. Such students are expected to conform to the same standards of attendance and scholarship as are required of matriculated students. Non-matriculated students may receive a formal statement of the satisfactory completion of any course.

In the *Announcement* of each School will be found the specific conditions governing admission to courses of instruction and to candidacy for a degree.

The admission, continuance upon the rolls, the graduation of any student, is subject to the full disciplinary power of the University authorities, as prescribed by the Statutes of the University.

Students prevented by conscientious scruples from complying with academic requirements which may be fulfilled only upon days set apart by their church for religious observance should make application to the appropriate authority for equitable relief.

REGISTRATION

Before attending University courses each student must present himself at the office of the Registrar, and file a registration blank giving such information as may be required for the University records together with a statement of the courses he is authorized to pursue. The central office of the Registrar, University Hall, and the offices at Barnard College, at Teachers College, at the College of Physicians and Surgeons, at the School of Dental and Oral Surgery are open for registration on the dates for registration given in the *Academic Calendar* (see Index). Registration at a later date is permitted only with the written consent of the Dean or Director, satisfactory cause for the delay having been shown. Students registering late are held accountable for absences thus incurred.

Students holding fellowships or scholarships are required to register not later than the date specified in the *Academic Calendar*; failure to do so may be considered as vacating the fellowship or scholarship.

GRADUATION

Diplomas are issued only at Commencement, and in February and October (for A.M.'s in December), or, in the case of the Ph.D. and J.D. degrees, upon the completion of the requirements.

WITHDRAWAL

An honorable discharge will always be granted to any student in good academic standing, and not subject to discipline, who may desire to withdraw from the University; but no student under the age of twenty-one years shall be entitled to a discharge without the assent of his parent or guardian furnished in writing to the proper Dean or Director. Students withdrawing are required to notify the Registrar immediately.

The Dean or Director of the School or faculty concerned, may, for reasons of weight, grant a leave of absence to a student in good standing.

FEES

The University Statutes provide that tuition fees, the University fee, and laboratory deposits are payable semi-annually in advance. No reduction is made for late registration. Registration will not be complete until such fees are paid. Checks should be drawn to the order of Columbia University and presented in person or mailed to the Office of the Bursar. Payment of fees after the last day of registration (see Academic Calendar) imposes automatically the statutory charge of \$6.00 for this privilege. Under the regulations, the privileges of the University are not available to any student until he has completed his registration.

The fees to be paid by students are subject to change at any time in the discretion of the Trustees.

The following fees are prescribed by statute:

(a) University Fee

For all students (except those in University Extension and Summer Session), for each Winter or Spring Session or for any part thereof	\$10
For students in University Extension exclusively, for a Winter or a Spring Session or for any part thereof, and for students in a Summer Session or any part thereof	\$7

(b) Tuition Fee

For all students, per point (which is one hour a week of attendance for a Winter or Spring Session, or the equivalent thereof), except in cases where a special fee is fixed	\$10
--	------

With the proviso that the minimum fee for a Winter or Spring Session in the case of a student enrolled for ten points or more in the School of Law shall be not less than \$150, and in the case of a student enrolled for the full course in the School of Medicine not less than \$250, and in the case of a student enrolled for the full course in the School of Dental and Oral Surgery not less than \$220.

(c) Fee for Application

For any degree	\$20
For any certificate	\$10

(d) Privileges

1. Late registration or late application for a degree or certificate or for deficiency or special examinations. \$6
2. Late application for entrance examinations \$1
3. Deficiency and special examinations \$3

The conditions under which such privileges shall be granted are to be determined by the Registrar with the approval of the President.

- (e) Entrance Examinations—for each series \$10
- (f) Rebates

1. The University Fee and the Fee for Application for any degree or certificate shall not be subject to rebate.
2. After the last day of the period provided for change of course, as announced in the Academic Calendar, no tuition fee shall be returned for any course which the student may for any reason discontinue. Exception to this rule may be made only in cases of total withdrawal from the University, when a partial return of fees may be authorized by the Registrar.

- (g) Students Activities Fee

For all male students matriculated in any School of the University in which the first degree is normally granted four years after admission to college, for each Winter or Spring Session or any part thereof \$10

One-half of the amount received in each Session on account of this fee to be expended on the maintenance of athletic activities, and one-half to be expended on the maintenance of non-athletic activities of students in Columbia College, provided that all such expenditures shall be subject to the authority of the President.

ADMINISTRATIVE PROCEDURE

Late Registration. For the ultimate date for the completion of registration without the payment of the additional fee, see the *Academic Calendar*.

Late Application. For the ultimate date for filing an application for admission, a deficiency or a special examination, or for a degree without the payment of the additional fee, see the *Academic Calendar*.

Deficiency and Special Examination. An examination to remove a deficiency in course or in entrance requirements, or an examination at an unusual time, involves the payment of the additional fee.

When a rebate is allowed for the discontinuance of courses or withdrawal from the University, such rebate will be reckoned from the day upon which the Registrar receives notice from the student.

Summer Courses in Surveying, Mining, and Geology. Students taking courses in Surveying and Geology in the Summer Session at Camp Columbia are required to pay a University Fee of \$7.00 and tuition fees for each course. The University Fee is payable but once for each session and allows a student to take any course or courses given during that session for which he is otherwise eligible. The tuition fees are estimated at \$10 per point.

Candidates for admission to advanced standing who attend the Summer Course in Practical Mining are required to pay therefor a fee of \$50.

DEPOSITS

Summer Courses in Surveying. Every student before starting for Camp, and at the same time the fees for the Summer Session in surveying are paid, shall make a deposit at the Bursar's office at Columbia University to meet Camp expenses, *viz.*, board, laundry, charges for drawing material, notebooks, etc.; also to cover any damage to, breakage, or loss of instruments or Camp equipment, and transportation of self or baggage from the station to and from the Camp. The Bursar's receipt for said deposit shall be presented to the professor in charge of the Summer Session upon the arrival of the student in Camp.

The amount of the deposit varies with the course or the number of courses taken and is as specified below. Students intending to take two or more courses shall deposit an amount equal to the sum total of the deposits herein specified for the respective courses. A check or the balance of the deposit which shall remain to the credit of the student after his withdrawal from the Session will be given to him payable upon application to the Bursar of Columbia University. In case the total charges exceed the deposit the student will be subject to an additional assessment.

The deposit for Astronomy *s107* is \$15; for C. E. *s2*, \$30; for C. E. *s15*, \$75; for C. E. *s25*, \$75; for C. E. *s26*, \$15; for C. E. *s26a*, \$30; for C. E. *s27*, \$75; and for C. E. *s29*, \$30.

The deposit for any one *survey* of Course *15*, *25*, or *27* is \$15.

Apparatus, Supplies, and Keys to Desks and Lockers. A deposit for the use of lockers, keys, apparatus, material, and the like, is required of students in certain schools and courses. At the end of the academic year each student will be credited with those articles which he returns in good order, and the value of those he has injured or broken will be deducted from his deposit. Details may be obtained from the Bursar.

DEPOSITORY FOR STUDENTS FUNDS

For the convenience and protection of students while in residence at the University, the Bursar is prepared to receive funds for deposit, subject to the printed rules and regulations, copies of which may be obtained at his office upon request. There is no charge for this service other than the exchange of out-of-town checks and drafts.

Personal checks will not be cashed by the University or credit allowed until the money has actually been received from the bank on which the check is drawn. New York drafts, money orders, and travellers' checks may be deposited for collection and withdrawals allowed when the cash is received. Students should provide themselves preferably with P. O. money orders, bank drafts on New York, or travellers' checks for the amount of their expenses, and are advised to open an account with the University on registration.

GENERAL INFORMATION

EMPLOYMENT FOR STUDENTS

The Appointments Office, located in Earl Hall, is the central placement department of the University through which men and women students and graduates are referred to suitable positions during their courses and after graduation.

In the field of part-time work the Appointments Office secures for competent students, who need to work their way through the University, the opportunity to earn enough for their partial support. In the past the office has been able to place students as tutors, clerks, translators, athletic instructors, technical workers, salesmen, stenographers, secretaries, typists, et cetera. Work is found both during the academic year and in the summer.

Preference is naturally given in case of a choice of candidates, to those who, as strangers in New York, are not likely to secure positions through other sources. While students of ability have been uniformly successful in obtaining work, no prospective student should come to Columbia expecting to depend entirely or even largely upon the assistance of the Appointments Office, but should be prepared to meet the expenses of at least the first session, approximately \$500.

APPOINTMENTS WORK

In the field of permanent employment, the work is divided between the Appointments Office located in Earl Hall and the Bureau of Educational Service at Teachers

College. Graduates of the University are eligible to file their credentials in either office according to the type of positions desired. No fee is charged for any services rendered.

The Appointments Office recommends graduates, both men and women, for suitable positions in business, professional, and technical work, and in teaching and administrative positions in colleges and universities, except those in education. The office functions in coöperation with the various educational departments, all recommendations being made after consultation with a representative of the appropriate department. Communications should be addressed to the Secretary of Appointments, Earl Hall.

The Bureau of Educational Service at Teachers College recommends qualified candidates for administrative, supervisory, and teaching positions in normal, secondary, and elementary schools, kindergartens and hospitals, and for college and university positions in the teaching of education. Communications should be addressed to the Director of the Bureau.

RELATIONS BETWEEN THE UNIVERSITY AND OTHER INSTITUTIONS

The educational opportunities of students in Columbia University (including Barnard College, Teachers College, and the New York College of Pharmacy) are increased by the close relations of the University with other institutions of instruction and research.

Museum of Natural History. The American Museum of Natural History places its collections at the service of advanced students of Columbia University for the purpose of study and research, and provides them with the necessary facilities for work.

Metropolitan Museum of Art. The Metropolitan Museum of Art admits students of Columbia University on presentation of cards of introduction from the University, and gives them special facilities for the study of the objects in the Museum.

New York Botanical Garden. Columbia University has the privilege of conducting University courses in botany at the New York Botanical Garden and of using its laboratories and floral material, and all courses of instruction given there are open to officers and students of the University without charge. The Director is a member of the Faculty of Pure Science. For a description of the equipment of the Botanical Garden see the statement of the Department of Botany.

Union Theological Seminary. The Faculty of the Union Theological Seminary has the status of a University faculty in the educational system of the University through representation on the University Council and is empowered to recommend candidates for the degree of Master of Arts in the Literature and Religion of the Bible and in the Comparative Study of Christianity and Other Religions. The Seminary admits students of high standing in the University to certain lectures in its regular and special courses. The Library of the Seminary, for reference, is open to all qualified students of the University.

Other Institutions. Besides the Vanderbilt Clinic and the Sloane Hospital for Women, the general and special hospitals of New York afford important fields for clinical teaching. The College of Physicians and Surgeons is in close alliance with the Presbyterian Hospital and is strongly represented on the staff of many other institutions, and regular clinical instruction at hospitals is made a prominent feature of the program. In many of these hospitals the fourth-year students are admitted as clinical clerks to serve on the house staff.

The University contributes to the support of the schools in Athens, in Rome, and in Palestine, which are associated with the Archæological Institute of America, and the advantages of these schools are freely open to graduates.

There are close informal relations between the University and the New York School of Social Work, the Training School for Public Service, the Hispanic Society of America, the Rockefeller Institute for Medical Research, the New York Zoölogical Garden, the New York Aquarium, and the laboratories at Wood's Hole and Cold Spring Harbor.

THE LIBRARIES

The Libraries of the University contain about 1,132,263 volumes, exclusive of unbound pamphlets.

Among the notable special collections may be mentioned the Phoenix Library, consisting of 7,000 volumes, the gift of Stephen Whitney Phoenix, of the Class of 1859; the Avery Architectural Library, a collection of about 29,000 volumes relating to architecture and decorative art; the Townsend Library of National, State, and Individual War Records; Temple Emanuel Library of Biblical and Rabbinical literature; Garden Library of Southern Americana; Holland Society Library (including a Grotius collection), Montgomery Library of Accountancy, Goethe collection, Kant collection, Mary Queen of Scots collection, special collections on the French Revolution, Jeanne d'Arc, anarchism, the drama, Rumanian literature, music, the Marvyn Scudder Financial Library, a collection of contemporary French literature at the Maison Française; and the Bryson, Avery, Sachs and Baldwin collections in the Teachers College Library. The Library possesses also the library that was gathered for the Reform Club of the City of New York.

Reading Rooms. About 20,000 carefully selected reference books and many of the most important works on all subjects, in standard editions, representing the leading authors in all literatures, are placed in the general reading room directly accessible to all authorized readers. On the same floor, in the north wing, is the periodical reading room, where are shelved many bound volumes of periodicals, and the current numbers of government documents and periodicals.

For the convenience of undergraduates of Columbia College, there is in Hamilton Hall a College Study containing a reference library of more than 25,000 volumes.

Connected with the stacks in which are stored the books relating especially to Philosophy, Literature, the Languages, the Sociological and Economic Sciences and History, are special study rooms, open only to authorized readers, which afford to advanced students and investigators in these fields opportunity to carry on their work in quiet rooms in the immediate vicinity of the literature of the subjects under consideration. The various departments of instruction have special libraries in close connection with their laboratories and lecture rooms.

The Law Library, the Library of Teachers College, which is the Educational Library of the University, and the reference libraries of Barnard College, the College of Physicians and Surgeons, and the College of Pharmacy, are all available to officers and students of the University. Nearly all the restricted libraries of the city, such as those of the learned societies, are open to officers and to advanced students introduced by the Librarian of the University.

In the basement of the Library, the New York Public Library maintains a branch of its circulation department. The collection contains about 8,000 volumes and additional titles are available through the Interbranch Loan System.

By the courtesy of the trustees of Union Theological Seminary, the reading room of that institution is open to students of the University.

Catalogues. The general catalogue of the Library is a record of all books, with the exception of the special collections in Law and Medicine, in the possession of the University. In addition to this there are catalogues of department libraries located in department reading rooms and a union catalogue which is a record of books which may be found in the Library of Congress, Harvard University, and other libraries.

Use of the Library. All officers, students, and graduates of the University have free access to the Library and may draw books for home use.

Persons of mature years desiring to engage in definite research which cannot be successfully conducted in the public or other libraries of this city will be given the

privilege of using this library in the building, upon filing a satisfactory application, responsibly indorsed. Blank applications will be furnished by the Librarian on request.

The Library is open each week-day (except Labor Day, Election Day, Thanksgiving, Christmas, New Year's Day, Washington's Birthday, Good Friday, Memorial Day, and Independence Day) from 8:30 a. m. until 10 p. m., during the Winter, Spring, and Summer Sessions of the University; and from 8:30 a. m. to 6 p. m. at other times.

BOOK STORE

The Columbia University Press, a department of the University, operates a book and supply store in the Journalism Building, with entrances from the campus between Furnald and Journalism, and at 2960 Broadway at the southeast corner of 116th Street, where books and supplies may be secured.

THE GYMNASIUM

(See "Equipment" under Physical Education departmental statement)

UNIVERSITY COMMONS

The University Commons, in University Hall, is operated under University supervision for the benefit of officers and students. The men's restaurants are located in John Jay Hall.

RESIDENCE HALLS

For men. The four University residence halls on South Field have accommodations for approximately 1350 men; Hartley Hall, the gift of Mrs. Helen Hartley Jenkins and Marcellus Hartley Dodge, 1903, in memory of the late Marcellus Hartley; Livingston Hall, named in memory of Robert R. Livingston, of the Class of 1765; and Furnald Hall, provided for in the will of the late Francis P. Furnald, in memory of his son, Royal Blackler Furnald, a member of the Class of 1901. Each of these buildings is ten stories in height exclusive of basement, and 137 feet long by 64 feet wide. John Jay Hall, completed in the fall of 1926, named in memory of Chief Justice John Jay, a member of the Class of 1764, has three very important facilities—adequate restaurants for men students, large and comfortable quarters for all the student activities, and needed developments for the residence accommodations of the College. John Jay Hall is a building 208 feet by 80 feet, 15 stories in height, located on the southeast corner of South Field (114th Street and Amsterdam Avenue). All four buildings are lighted by electricity and heated by steam, and have telephone and electric elevator service. The halls are built of stone and overburned bricks. The floors and partitions are of the reinforced concrete type, and the construction is considered thoroughly fire-resistant throughout.

Hartley and Livingston contain 300 rooms each, the average size of the bedrooms being 8'4" x 14'6" and of the studies 10'6" x 14'0". Furnald contains 282 rooms, the average size of bedrooms being 9'0" x 14'9" and of the studies 11'6" x 13'6". The arrangement permits of flexibility in renting rooms in suites. There are also several double rooms. John Jay Hall contains 476 rooms, the average size being 8'3" x 14'2". There are nineteen two-room suites. All the rooms have outside light and exposure. All ceilings are nine feet high. Each bedroom has a clothes closet and enameled basin with hot and cold running water. The rooms are provided with oak furniture and are completely furnished (detailed statement sent on request). There are four shower baths on each floor. All the water used in the halls is filtered. The entrance for students to each hall is from the campus, and leads directly into a large foyer sixty feet

square. This foyer runs up through two stories and has a large open fireplace opposite the entrance. The office of the hall is at the side of the main entrance. In the basement is space for trunk storage. Well equipped infirmaries are provided in John Jay Hall. Room fees range from \$135 to \$270 for the period between the Monday preceding the opening of the Winter Session and the Saturday after Commencement. Hartley and John Jay Halls (5, 6, 7 floors) are reserved primarily for undergraduates in Columbia College. Fernald Hall is reserved primarily for law students, and Livingston Hall and John Jay (8-15 floors) for graduate and professional school students.

For women. Johnson Hall, situated on East Field, 411 West 116th Street, overlooking the campus and within four minutes' walk of the Columbia University subway station (Broadway and 116th Street) has accommodations for about 360 women students. It is named in memory of Samuel Johnson, first President of King's College and of his son, William Samuel Johnson, first President of Columbia College, after the Revolution. This building is of stone, brick and steel construction, and is lighted by electricity, heated by steam and has telephone and electric elevator service. The rooms are furnished with tables, bookshelves, lamps, chairs, chiffoniers, beds, mattresses, pillows, blankets, sheets, pillowcases and towels. There are five showers on each floor and all the sleeping rooms have hot and cold running water. There are a number of two-room suites which may be occupied by one or two persons. The hall is provided with a large dining room, large and small social rooms and a well equipped infirmary. As meals are served to residents all are required to take breakfast and dinner in the hall—luncheon optional. The fee for two meals a day for the academic year is \$245. Room rates \$190-\$360.

All the University residence halls, for both men and women, are under the supervision of advisory committees appointed by the President, consisting of University officers and assisted by committees made up of residents in the halls.

Copies of Residence Halls Announcements giving floor plans and dormitory regulations together with application blanks will be furnished on request by the Secretary of the University, 213 Library.

BARNARD COLLEGE HALLS FOR WOMEN

Brooks and Hewitt Halls (116th Street between Broadway and Claremont Avenue) the residence halls for Barnard College, accommodate about 350 students. These halls contain dining and social rooms. There is a well equipped infirmary in connection with the halls. Full information in regard to location and costs of rooms, deposits required, etc., is published in a separate pamphlet to be had on application to the Assistant to the Dean in charge of residence halls of Barnard College.

TEACHERS COLLEGE HALLS

Bancroft Hall at 509 West 121st Street is divided into two- and three-room apartments, each with bath and kitchenette. It is reserved for married men students with their families.

Grant Hall and *Sarasota Hall* at 512 and 514 West 122nd Street, are divided into three-room apartments, each with bath and kitchen. Preference is given to married men students with their families.

Seth Low Hall (for Women) is a nine-story fireproof, elevator residence hall at 106 Morningside Drive, about one and a half blocks from the College buildings.

Whittier Hall (for Women) adjoins Teachers College on the east. It is a fireproof building, ten stories in height, with elevator service. The Welfare Director of Teachers College lives in the Hall, and she and her assistants have supervision of the social welfare in coöperation with the Student Government Association. The Resident Nurse and her assistants work under the advice of the College Physician.

Information concerning rooms in these five halls will be furnished on application to the Business Manager of Teachers College.

The dining rooms in Grace Dodge Hall furnish ample accommodations for students and staff.

INTERNATIONAL HOUSE

International House, 500 Riverside Drive, the home of the Intercollegiate Cosmopolitan Club, is maintained for men and women students from foreign lands and a limited number of American students. It accommodates 175 women and 325 men. It contains attractive restaurants and social rooms. Fees for the academic year range from \$185 to \$325. Inquiries should be addressed to Committee on Admissions, International House, 500 Riverside Drive.

THE RESIDENCE BUREAU

Columbia University maintains a Residence Bureau to protect the students' interests and to assist students in finding the best accommodations obtainable in the University neighborhood. There is no charge made for this service. The Bureau will furnish upon request addresses of rooms which have been inspected. The University is in no way responsible for any private lodging house. Students desiring information regarding rooms outside of University halls should address the Residence Bureau, Room M Earl Hall, Columbia University.

DINING FACILITIES

The University maintains a dining room for women students in Johnson Hall and a dining room and a grill room for men students in John Jay Hall. In addition the University maintains the following dining rooms (cafeteria service): The Commons (men and women) University Hall; Barnard Hall Lunch Room (women) Barnard Hall; Teachers College Cafeteria (men and women) Grace Dodge Hall, 121st Street. All these dining rooms are under expert supervision and furnish wholesome food at moderate rates.

The Columbia University Press Bookstore, located in the basement of Journalism, conducts a soda fountain where light luncheons are served.

PUBLIC WORSHIP AND RELIGIOUS WORK

Service in St. Paul's Chapel, at which attendance is voluntary, is held at noon, every week-day during the academic year, except Saturday. Service on Sunday, with address by the Chaplain or by a visiting University preacher, is at 4 o'clock. Organ recitals are also frequently given.

The Chaplain holds hours for consultation after daily chapel service and also in the afternoon at Earl Hall. The Chaplain's house is in close proximity to the campus.

Mr. Herbert E. Evans, Advisor of Student Religious Organizations, has regular office hours in Earl Hall daily, except Saturday, 10-4.

At Teachers College services are held twice a week in Milbank Memorial Chapel.

Informal meetings and discussion groups are also arranged, and opportunities are offered for varied forms of social service.

EARL HALL

Earl Hall was given to Columbia University by the late William Earl Dodge for the religious and social activities of the students. On the main floor, reached by the campus entrance, are the Offices of the Director of Earl Hall (Men's Residence Halls Office); the Residence Bureau; the Secretary of Appointments; and the Meeting Room.

On the upper floor are the Offices of the Chaplain of the University and his staff; an auditorium seating 400 people is available for student receptions and dances. The lower floor, entered from Broadway, is occupied by the Office of the University Physician.

MEDICAL ATTENDANCE

The University Medical Officer, Dr. Wm. H. McCastline, has direct supervision of all matters affecting the health of the student body. All cases of illness, especially communicable diseases, should be promptly reported to him. Absence from classes due to illness should also be reported to his office. The Medical Officer and the members of his staff hold office hours daily in Earl Hall for the medical care of students and members of the staff.

Members of the University who need medical attention at home, and who desire to be advised concerning private physicians, specialists, nursing care, clinics or hospitals, will receive such information upon applying at the office of the University Medical Officer.

STUDENT ORGANIZATIONS

The various student organizations, while self-governing, are subject to the following regulations. The schedule of the public contests and performances must be approved by the University Committee on Student Organizations. Budgets for expenditure are approved and checked, in the case of athletic organizations by the University Committee on Athletics, and in the case of non-athletic activities, by the Governors of King's Crown. The University Committee on Athletics, consisting of three graduates, three students and three university officers, adopt and administer rules of eligibility not involving questions of scholarship and govern participation in intercollegiate athletics. Provision is made for the election each year by the student body at large of a Board of Student Representatives.

The payment of the Students' Activity Fee entitles each registrant in Columbia College to the following privileges without further charge:

Admission to all home athletic contests; subscriptions to general university publications such as the daily Spectator, the University comic and literary magazines; and concerts, debates, and theatrical performances.

GREEK-LETTER FRATERNITIES

The following Greek-letter fraternities, given in the order of their establishment, maintain chapters at Columbia University: Alpha Delta Phi; Psi Upsilon; Delta Phi; Delta Psi; Phi Kappa Sigma; Phi Gamma Delta; Phi Kappa Psi; Delta Kappa Epsilon; Zeta Psi; Beta Theta Pi; Delta Tau Delta; Theta Delta Chi; Phi Delta Theta; Delta Upsilon; Sigma Chi; Sigma Alpha Epsilon; Pi Lambda Phi; Phi Sigma Kappa; Theta Xi; Zeta Beta Tau; Phi Epsilon Pi; Sigma Nu; Phi Sigma Delta; Alpha Sigma Phi; Tau Epsilon Phi; Sigma Alpha Mu; Phi Beta Delta; Alpha Phi Delta; Kappa Nu; Tau Delta Phi; Beta Sigma Rho; Delta Beta Phi; Delta Chi; Sigma Omega Psi; Alpha Epsilon Pi; Chi Tau; Phi Delta Mu; Phi Delta Pi; Omicron Alpha Tau.

All of the fraternities which admit students of Columbia College have entered upon an interfraternity agreement. This agreement restricts the issuing of fraternity pledges to actual matriculants in the University and places an educational requirement upon initiation. When a student registers in Columbia College he is asked to sign a pledge that no previous agreement or understanding of any kind exists between himself and any fraternity in the University. The educational requirement for initiation involves passing grades in at least 12 points of College work at the mid-term.

DIVISIONAL AND DEPARTMENTAL STATEMENTS

INTRODUCTORY

Except as noted below courses of instruction are numbered in accordance with a plan uniform throughout the University, and attention is called to the following information which the number assigned to a course will in each case indicate.

Odd numbers indicate the Winter Session, even numbers the Spring Session of the academic year. Courses designated 1-2, 23-24, etc., run through the Winter and Spring Sessions beginning in the Winter Session; those designated 24-25, etc., begin in the Spring Session. "s" prefixed to any number indicates a course given in the Summer Session. Certain courses given under the trimester plan are designated with the letters W M S after the number. W indicates that the course is given in the Winter trimester, M in the Middle trimester and S in the Spring trimester. Courses numbered between 1 and 100 are, in general, elementary and may not be offered in fulfillment of the requirements for the higher degrees (Master's and Doctor's Degrees). Courses numbered from 101-200 are primarily for students who hold a first degree, but may be open to undergraduates whose record as to prescribed subjects is satisfactory. In general, no such course may be taken without some elementary training in the same or in some allied subject. Courses from 201-300 are restricted to such graduate students as are qualified to pursue the work to advantage. Seminars are numbered from 301 up. A course designated thus: 2R-1R, etc., runs through two sessions, beginning in February. Courses enclosed in brackets are not offered in 1928-1929. Attention is called to the current *Announcement of the Faculties of Political Science, Philosophy, and Pure Science*, and particularly to the fact that the requirements for the degrees of Master of Arts, Master of Science, and Doctor of Philosophy are based upon subjects, and not upon courses. Students should consult the officers of instruction and administration concerned with regard to their selection of courses before registration.

Credit for courses is given in terms of points. The term "point," upon which tuition fees are based, signifies work requiring attendance for a winter or spring session equivalent to one hour weekly on lectures or recitations, or a correspondingly longer period in laboratory, drafting room, or shop.

Home Study courses cannot be counted for academic credit in any department of the University.

Any subject of study not appearing in its alphabetical order may be found through the index.

With the exception of the courses in engineering the University is open to women in all of its various branches.

Students should note the distinction between a department and a school. For instance, there are Departments of Civil, Electrical, and Mechanical Engineering and a School of Engineering. The departmental statements which follow have to do only with the giving of the instruction and the opportunities for research in each special branch of study. The information as to the conditions of admission to the courses and the academic credit to be received therefor, will be found under the information relating to Colleges and Schools which follows the Departmental Statements, and in the separately printed *Announcements*.

It is not possible, within the limits of this volume, to give more than the briefest outline of the courses. In the appropriate *Bulletin of Information* published by the University, and distributed without charge upon application to the Secretary, a detailed statement will be found of the scope of each course, the manner of treatment, the courses requisite, and the like.

Equipment. The School of Architecture occupies four complete floors in Avery Hall. The provision of rooms for lectures, drawing, drafting, and study is ample, and the drafting-rooms on the upper floor are well lighted and convenient. One room is set aside for the study of books and photographs, and there is a large exhibition room for Design and other current work.

The Avery Architectural Library, consisting of about 25,000 volumes relating to architecture and allied arts, occupies the ground floor of the building. It is open to the public daily (except Sundays and holidays) from 9 a. m. to 10 p. m. Its abundance of material is available for purposes of study and illustration in the School.

In addition to this the School possesses, in its own departmental library, a collection of about 18,000 photographs and several hundred books, a classified library of many thousands of prints and plates, and a large number of original drawings, including examples of architectural draftsmanship from the École des Beaux-Arts at Paris and from many other sources. A collection of about 16,000 lantern slides is in daily use for illustrating lectures on the history and theory of architecture, painting and sculpture, on ornament and the allied arts, as well as landscape and civic design. The School also possesses a valuable collection of casts for use in the drawing-rooms and for general illustrative purposes. The illustrative material on construction and architectural engineering is also extensive, comprising a large variety of building materials and appliances and a number of structural models especially prepared for the School.

Equipment. The Department of Astronomy is housed in the Physics Building. The observatory is on the roof of this building, and is equipped with an equatorial telescope having a 12" diameter objective, constructed by Alvan Clark and Sons. The telescope and observatory are equipped particularly for the most effective use in the teaching of astronomy. A transit instrument with its house forms part of the observatory. The University has also a very complete collection of instruments for the application of astronomy to geodesy, such as are employed in determining latitude and longitude at primary geodetic stations. In addition to the above, the University possesses a number of unmounted instruments; among them the late Lewis Morris Rutherford's famous 13-inch equatorial, with its spectroscopic, photographic, and visual attachments.

Library. The University Library is especially strong in astronomy. Among other important collections, it contains the private library of the late Dr. Otto Struve, formerly director of the Pulkowa Observatory.

Equipment. In Havemeyer Hall the Chemical Engineering Department is provided with space for its museum, lecture-rooms, and laboratories, and every convenience has been furnished for both the instructors and students working in the general or special courses.

The Chandler Museum of General Inorganic and Organic Chemistry and of the Chemical Arts, a large room occupying the whole left wing of the ground floor, contains the elements and all their more important compounds, inorganic and organic; materials and products illustrating the chemical arts, and numerous models, pictures and diagrams.

The Laboratory of Chemical Engineering for the instruction of students in practical application and the solution of problems in connection with the chemical industries is equipped for the manufacture of pure chemicals from their raw materials on a large scale, with batteries of steam evaporators, and with stills, centrifugals, filter presses, crushers, vacuum dryers, multiple effect evaporators, and general apparatus for industrial research.

The Laboratory for Applied Electrochemistry is equipped with special motor-dynamos, one of which furnishes direct current at low voltages to the students' desks for general electrolytic work; the other provides heavy alternating current to the electric furnace room. This room is furnished with all appliances for electric furnace work. The students' desks are fitted with special switchboards and measuring instruments, and the laboratory has been arranged for carrying on research work in all branches of electrochemistry.

The Furnace Room includes standard types of pot furnaces, muffle furnaces, oven furnaces, and a rotary furnace equipped with an automatic heat control device. This apparatus taken in conjunction with the electric furnaces covers a wide range of heating operations.

The equipment of the Laboratory for Engineering Chemistry includes standard types of apparatus for industrial water analysis and treatment, solid, liquid, and gaseous fuel analysis, petroleum distillation, examination and testing of lubricants, cement, asphalt and paper.

The Chemical Library in Havemeyer Hall is supplied with an extensive collection of books on chemistry and chemical engineering, and is open from 9 a. m. to 5 p. m. and during the sessions of the University from 8 to 10 p. m.

During the year 1927-28 the following additional special lectures were given for the benefit of the students in Chemical Engineering: Mr. F. W. TURNER, JR., Publication of Chemical Articles and Books; Dr. C. G. FINK, "Organization of Research Laboratories"; Dr. JEROME ALEXANDER, Lecture in Colloid Chemistry; Mr. S. SKOWRONSKI, "Copper"; Dr. M. GRUNBAUM, "Malachite Green"; Dr. HENRY FABER, "Organic Peroxides," Dr. L. H. BAEKELAND, "Why Chemical Engineering?" "The Human Side."

Equipment. The instruction offered by the department consists not only of lectures, recitations and conferences but it is also amply illustrated by actual field practice in surveying, by practical design work in the drafting room, and by work in the laboratories both of this department and those conducted by the departments of electrical and mechanical engineering.

The field practice in surveying is given at the Summer School of Surveying, established in 1884 and known as Camp Columbia. The camp has for some time been permanently located at Lakeside on Bantam Lake near Litchfield, Connecticut. Here the University owns almost a square mile of land which is used only for the purposes of the school and is fully equipped with dormitories, mess hall, and other buildings. The location is ideal, on high ground in country noted for its healthy climate and admirably suited to all surveying operations. The instrumental equipment is exceptionally complete consisting of transits, levels, theodolites, and all other necessary instruments for all kinds of plane surveying including hydrographic and railway and also for geodetic operations. The work is conducted in a thoroughly practical

¹ See note 1, page 135.

manner and the methods and standards are those of the best of modern surveying practice.

The drafting rooms of the department are located in the Engineering building and here the practical design work and application of theory to the solution of the problems of the civil engineer are carried out. Photographs and detailed plans of engineering works are available for study and analysis.

The laboratories of the department are located on the ground floor and in the basement of the Engineering and Philosophy buildings. They are completely equipped with modern apparatus and are used for practical instruction in the testing and behavior of structural materials, highway materials, cements and concretes. Furthermore, the commercial investigations and research work constantly carried on by trained investigators in these laboratories not only keep the work of the department in close touch with the practical problems of engineering, but also bring these problems to the student's attention and stimulate his interest in the subject and in the ways and means adopted in meeting difficulties of construction.

Equipment. The George Rice Carpenter Library, located in Room 601, Hall of Philosophy, contains over 3,500 volumes. This Library, now the property of the University, was established and for many years maintained by friends of the late Professor Carpenter as a tribute to his memory. It is used as a departmental library for graduate students.

The library of the Brander Matthews Dramatic Museum occupies rooms adjoining the Carpenter Library, and contains nearly 10,000 volumes on the drama. In Room 306, Hall of Philosophy, are models of the theatres at different periods and many pictures illustrating the history of the stage.

Courses appropriate to a normal undergraduate program are also offered, under supervision of this department, in St. Stephen's College and in Seth Low Junior College.

Equipment. The geological laboratories, lecture-rooms and museums are found in Schermerhorn Hall. They contain the collections and laboratory in invertebrate paleontology and stratigraphic geology, the collections in economic and inorganic geology, and the departmental library. The laboratory in 402 contains collections illustrative of the different kinds of rocks which are adapted to conferences in the courses in general geology. There is also a much larger series of rocks, embracing nearly all the rare species and structures, which is used for advanced work in microscopic petrography and petrology. Parallel series of thin sections of these are provided, as are microscopes and other necessary apparatus for study, instruction and investigation.

Accessible to the student in 101 are study collections, which illustrate the various geological formations and index fossils, and which are used in the lectures and conferences on stratigraphical and historical geology. A very complete series illustrating the ore deposits, associated geological formations, and useful minerals of North America housed in 301 is similarly employed in the lectures on economic geology.

For the physiographic work and for such geographic work as is given as a part of the service of this department a large collection of mounted maps, including grouped sheets of various state and national surveys, is used. An excellent series of large wall maps and most of the sheets of the different countries of Central Europe are now available. Topographic and geologic maps of other foreign countries are being added as opportunity offers. A classified series of mounted photographs of landforms, accompanied by descriptive text, is made the basis of a part of the laboratory study. Three additional rooms on the 400 floor are equipped for this branch of the departmental work and consist of the map room, 406, a research room, 405, and a large laboratory, 407.

The collection of fossil fishes is now deposited in the American Museum of Natural History.

The collections in fossil botany and the paleobotanical books belonging to the University are now deposited in the New York Botanical Garden, where the instruction in this branch is given.

¹ See note 1, page 135.

By arrangement with the American Museum of Natural History, advanced students in the University receive special privileges in its collections, which contain a wealth of geological and paleontological material especially adapted to comparative studies in connection with investigation.

The work of the students in the college courses in Mineralogy is performed in the Egleston Museum, in the blowpipe laboratory, and in the adjoining conference room, in which are student collections of crystal models and minerals, and several thousand unlabeled specimens used in determinative work. The department possesses, also, about 2,000 sections of minerals and rocks, 1,500 crystal models in wood and glass. Students in optical mineralogy and in Course 117 use the Egleston Museum, and for crystal measurements and monochromatic light determination there is provided a large dark-room.

The department has a serviceable working library and reference reading room with a librarian in constant attendance. The combined equipment of this kind in all branches of the department is represented by about 10,000 volumes and includes all texts, reports and special publications except some of the rarer or older volumes. The standard periodicals are kept on file.

Equipment. The University Library offers excellent facilities for the study of German, both on the literary and the linguistic side. The Scandinavian collection contains a good representation of the ancient saga and poetical literature, and many of the eminent writers of modern Norway, Denmark, and Sweden. The Holland Society library, deposited with the University in 1901, contains a considerable collection of books and pamphlets in the Dutch language from all periods.

The Library has sets and the current numbers of all the important periodicals which deal with Germanic literature and Germanic and general philology. It also has sets of periodicals no longer published, and a large collection of the transactions and publications of the learned societies of America and Europe.

Departmental equipment includes the Tombo Memorial Collection, consisting of works in modern and contemporary German literature, and a reference library of several thousand volumes containing the most important material for the critical study of the Germanic languages and literatures. This is in part the gift of Mrs. Calvin Thomas and is independent of the main collection in the University Library. Both collections are placed in the two rooms adjacent to the lecture-room and offices of the department in Philosophy Hall. A similar library of about 1,500 volumes, largely from the bequest of William Addison Hervey, is maintained in Hamilton Hall for the use of advanced college students.

The income of the Carl Schurz Library Fund (\$10,000), contributed by citizens of New York in commemoration of the seventieth birthday of Carl Schurz, is, by the terms of the gift, devoted in perpetuity to the purchase of books in the field of the German language and literature.

For the Carl Schurz Fellowship in the German Language and Literature, see Index.

For the William Addison Hervey Memorial Scholarship in the German Language and Literature, see Index.

Germanic Club. The Germanic Club is an organization founded in 1902 for the purpose of presenting original papers and reviewing and discussing important contributions to recent scholarship in the Germanic field. The Club consists of the officers, fellows, and scholars of the department. Meetings are held monthly.

Germanic Review. The *Germanic Review* is a quarterly periodical devoted to researches in the fields of the languages and literatures of the Germanic peoples. It is edited and published by the Department.

Equipment. The General Library is unusually rich in early and rare editions of the Classics, and contains also an excellent selection of recent works on the Latin and Greek languages and literatures and on classical philology in general. The departments of archaeology, epigraphy, palaeography, Roman history, and Roman law are especially well represented. The library receives all the important serial publications issued abroad and at home, in the fields of philology and archaeology. The Avery Library and the Fine Arts Library contain a large number of illustrated works on art and archaeology as well as on architecture and offer an unusual opportunity for the study of these subjects. Furthermore, in the Drisler and Earle Collections in the departmental reading-room in Philosophy Hall, the department possesses a special library of selected works which is at the disposal of graduate students. The department is also fairly well equipped with maps, plans, etc.; owns a large collection of photographs of Greek and Roman monuments, localities, and sculpture; and has a large number of squeezes of inscriptions. On the Roman side the Olcott Collection includes a valuable collection of ancient coins, some original inscriptions, and a collection of miscellaneous antiquities. The students of the University have free access to the collections of the Metropolitan Museum of Art for study and comparison.

Equipment. In addition to excellent working collections of constitutions, codes, session laws, judicial decisions, government reports, legal treatises, transactions of legal societies, and law journals of the principal foreign countries as well as of the United States, the Library of Columbia University offers special advantages to students of politics, public law, and comparative jurisprudence in the collections of Henry Livingston Thomas, late chief translator to the Department of State, of the Holland Society of New York, and of the Reform Club of the City of New York, of which the Columbia Library is the depository. The materials thus furnished are richly supplemented by those in the libraries of public institutions, learned societies, and civic organizations, particularly the Hispanic Society of America, with its unique collection of materials relating to the history, institutions, and culture of Spain, Portugal, and Latin America, the Bar Association, and the Law Institute. To these libraries advanced students have access under favorable conditions. Fuller information as to courses and opportunities for historical work is given in the current *Announcement of the Division of History, Economics, and Public Law*, which may be obtained by applying to the Secretary of the University. Under the auspices of the Academy of Political Science, to which advanced students are eligible as members, opportunities are given for the discussion of questions of interest as presented in papers by specialists.

Lectures of special interest to students of politics and jurisprudence are maintained by specific endowments, such as the Beer lectures in political science, the Blumenthal lectures in politics, and the Carpentier lectures in law. Some of these lectures are given by distinguished foreigners, others by men prominent in public life in the United States.

Equipment. In the gymnasium of Columbia College the main exercising-room is semi-circular in shape, and has a floor area of 16,000 square feet. The ceiling is 35 feet high, and the room is well lighted and well ventilated, both naturally and artificially. The running track is 11 feet wide, with ends raised, and measures 10 laps to the mile. On the same floor as the running track are the Gymnasium and Director's offices; an auxiliary gymnasium 80 x 100 feet; rooms for fencing, boxing and handball; two large dressing-rooms with 3,000 steel lockers, and 32 shower-baths. Below the exercising-room is the swimming pool, semi-circular in shape; it measures 100 by 50 feet on its axes, and contains 260,000 gallons of water which is filtered and sterilized daily. The depth is from 4 to 10 feet. Around the pool are the dressing-rooms and 20 shower and needle-baths. On this floor are also a large room and two dressing-rooms equipped with shower-baths and lavatories, for the use of the various athletic teams.

The athletic field is equipped with a $\frac{1}{4}$ -mile running track, football field, baseball field, basketball court; facilities for jumping, pole vaulting, putting the shot, etc.; 9 tennis courts, and a dressing-room with 1,000 lockers and shower-baths.

The Frederick Ferris Thompson Memorial Building, which houses the department of Physical Education of Teachers College, was given by Mrs. F. F. Thompson. It is a building of four stories, devoted to the purpose of physical education and health education. It contains offices, examination rooms, lecture and classrooms, laboratories, handball courts, a swimming pool, four gymnasiums, rooms for corrective exercises, dressing-rooms, shower-baths and a suite of rooms for photographic purposes. This building provides physical-training facilities for women and the pupils of the Horace Mann School, and the varied equipment for the theoretical and practical instruction of professional students in physical education.

¹ See note 1, page 135.

Barnard Hall, the gift of Jacob H. Schiff to Barnard College, was opened in September, 1917. This building provides for Physical Education purposes, three gymnasium floors (one 102 by 85 feet), and two smaller rooms, a swimming pool 60 by 30 feet with a depth of 4 to 8 feet, lockers and dressing-rooms, rest-rooms and departmental offices; here also are the library, class studies, dining-rooms, offices of the different college organizations, and rooms used for various social purposes.

The University Gymnasium is open daily during the academic year, except on Sundays and legal holidays, from 9 a. m. to 7 p. m., Tuesdays, Fridays and Saturdays, and 8.30 a. m. to 10 p. m., Mondays, Wednesdays and Thursdays. It is closed for the entire day only on Election, Thanksgiving, Christmas, New Year's, Washington's Birthday and Good Friday. On all other holidays it is open from 3 to 6 p. m. One or more of the instructors are on the floor at all times when the Gymnasium is open.

A course in physical education is required of all freshmen and sophomores in Columbia College. A physical examination is required of each student in these classes upon entrance and at the end of the required work, and of all other students taking part in athletics.

Every student is entitled to a physical examination by the Medical Director. On the basis of this examination advice is given as to the kind and amount of exercise best adapted to his needs.

Courses appropriate to a normal undergraduate program are also offered, under the supervision of this department, in St. Stephen's College and in Seth Low Junior College.

Laboratories and equipment. In July 1926 the Department of Physics moved into a newly completed Physics laboratory, a large building of twelve stories, basement and attic on West 120th Street near Broadway, designed throughout as a modern laboratory for research and instruction in Physics.

Under the direction of the professor of electro-mechanics, laboratories have been equipped in Philosophy Hall from the Marcellus Hartley Fund for research in the subjects of electricity and magnetism. The laboratories afford unusual opportunities for students desiring to specialize in these subjects.

The Ernest Kempton Adams Precision Laboratory is equipped with instruments of the best design and highest precision for measurements in mechanics, heat, light, radio-activity, and those branches of electricity not already provided for by the Marcellus Hartley Fund.

The physics laboratories at Barnard College occupy the second floor and a part of the basement of Fiske Hall. They are well equipped for quantitative experimental work in the courses offered.

The physics laboratories and lecture-room of Teachers College are especially equipped for illustrating the teaching of physics in secondary and normal schools.

Equipment. The special laboratories for the work in Optometry occupy the entire eleventh floor of the new Physics Laboratories. Here ample facilities are available for practice in mechanical optics and eye examinations. During the past year the ophthalmic equipment for making all sorts of tests of the eye has been greatly augmented by many generous gifts from optical firms and associations interested in the development of the work and by the purchase of new apparatus by the University. The optical laboratory is open every Wednesday and Thursday afternoon of the college year, at which time by making an appointment in advance anyone may have his eyes examined without charge.

Courses appropriate to a normal undergraduate program are also offered, under the supervision of this department, in St. Stephen's College and in Seth Low Junior College.

Equipment. In addition to excellent working collections of constitutions, codes, session laws, judicial decisions, government reports, legal treatises, transactions of legal societies, and law journals of the principal foreign countries as well as of the United States, the Library of Columbia University offers special advantages to students of politics, public law, and comparative jurisprudence in the collections of Henry Livingston Thomas, late chief translator to the Department of State, of the Holland Society of New York, and of the Reform Club of the City of New York, of which the Columbia Library is the depository. The materials thus furnished are richly supplemented by those in the libraries of public institutions, learned societies, and civic organizations, particularly the Hispanic Society of America, with its unique collection of materials relating to the history, institutions, and culture of Spain, Portugal, and Latin America, the Bar Association, and the Law Institute. To these libraries advanced students have access under favorable conditions. Fuller information as to courses and opportunities for historical work is given in the current *Announcement of the Division of History, Economics, and Public Law*, which may be obtained by applying to the Secretary of the University. Under the auspices of the Academy of Political Science, to which advanced students are eligible as members, opportunities are given for the discussion of questions of interest as presented in papers by specialists.

Lectures of special interest to students of politics and jurisprudence are maintained by specific endowments, such as the Beer lectures in political science, the Blumenthal lecture in politics, and the Carpentier lectures in law. Some of these lectures are given by distinguished foreigners, others by men prominent in public life in the United States.

Equipment. The library facilities are unexcelled. Every journal of importance, American or foreign, dealing with economics or social science, is taken regularly by the Library. Any book needed by advanced students can usually be secured at once. The special library of history and political science alone comprises more than 80,000 volumes.

The facilities offered to students of sociology and social economy include a large library of general and special works on sociological theory, the history of the family, pauperism, crime, and penology. Arrangements have been made with the Charity Organization Society, the State Charities Aid Association, the University Settlement, the East Side House, and the Brooklyn Bureau of Charities, by which students can become fully acquainted with actual work among the people and with the most approved methods.

Students of economics and social science will find in New York unrivaled library facilities. In addition to the University, there are the New York Public Library on the

Astor, Lenox and Tilden foundations, New York Historical Library, Long Island Historical Library, Library of the New York School of Social Work, the Bar Association Library, and the Law Institute Library, to each of which students have access under favorable conditions. Advanced students also have at their disposal the library of the McVickar Professor of Political Economy which contains an important collection of works on early economics.

The Statistical Laboratory, conducted by Professor CHADDOCK, is equipped with the most modern devices for facilitating statistical work, including the Hollerith punching, sorting, and tabulating machines, Burroughs adding machines, and several calculators of the Brunsviga and Millionaire types, calculating tables, and materials and devices for the construction of graphs. Some of the most necessary current sources of statistical data both for our own and for foreign countries, are kept upon the shelves for reference and instruction.

Students also have the privilege of attending all of the courses in the School of Social Work conducted by the Charity Organization Society.

UNDERGRADUATE ENTRANCE REQUIREMENTS

GENERAL STATEMENT

The Director of University Admissions administers the entrance requirements for all departments of the University. No formal entrance tests are prescribed for graduates who elect to study under the Faculties of Political Science, Philosophy, or Pure Science, or to enter a professional school of the University which demands previous college residence as a basis for entrance; namely, Law, Medicine, Mines, Engineering and Chemistry, Architecture, Education, Business, Journalism, Dentistry, Library Service, and Practical Arts. Candidates for admission to these schools should present their credentials from the college of previous residence. Entrance tests are prescribed for admission to all other departments of the University. Admission to the first year course in Columbia College, Barnard College, and the College of Pharmacy (University course for B.S. in Phar.), presupposes the passing of written examinations; the candidate's school record is also taken into account; but a satisfactory showing in examinations and in school preparation are not in themselves sufficient to guarantee admission, which depends also upon the candidate's character, personality, and promises of future usefulness. The passing of a psychological examination may be substituted for other written examinations, provided the candidate's record is accepted as satisfactory in all particulars.

Information regarding admission by transfer to the undergraduate schools will be found in the sections of the catalogue describing those schools.

Applications for Admission. Applications for admission should be filed not later than July 1 of the year when the candidate plans to enter.

EXAMINATIONS AND RECORDS

The University issues annually a pamphlet entitled *Bulletin of Entrance Examinations and Admissions*. This pamphlet gives detailed information upon the following matters;

The time schemes for the examinations of the College Entrance Examination Board and of Columbia University.

The dates for filing of applications. (Given also in *Academic Calendar* at end of this volume.)

Method of obtaining, filling out, and filing application blanks and school records.

Fees for examinations and method of payment.

The award and duration of credits toward admission as a result of examinations, and information as to the conditions under which examinations may be divided among two or more series.

The specific conditions of admission to each school requiring entrance examinations.

The official statements of the requirements in each subject (including information as to the preparation and presentation of notebooks in subjects requiring such records).

This pamphlet may be had without charge upon application to the Secretary of Columbia University. Any person who intends to take examinations himself or to prepare others for them should obtain a copy of it and familiarize himself with its contents. *The information which follows here is merely a brief summary of that given fully and officially in the Bulletin.*

The minimum age for admission to the Freshman Class in Columbia College is 16; in Barnard College, 15; in other schools, 18; with a corresponding increase in the case

of advanced standing. For students entering from secondary schools, an estimate of character and personality, and a certificate of health must be presented, and in the case of students from other colleges an honorable dismissal.

Students may enter Barnard or Columbia College either in February or in September. There are two methods of admission.

I. The new method, employing the psychological examination.

Candidates who have graduated with good grades from an acceptable secondary school and have completed an acceptable course of study, on submitting satisfactory records of school work, health, character, and promise, receive permission to substitute a psychological examination for the entrance examinations required by the old method. The course of study must have included the prescribed entrance subjects and must have been concerned primarily with language, science, mathematics, and history.

II. The old method, by entrance examinations.

(Students entering by the old method are required to take the psychological examination for purposes of record.)

(a) The student may satisfy the requirements in the subjects required for admission by passing entrance examinations covering 15 entrance units. In passing upon the results of the examinations in the several subjects, the candidate's school record is taken into account.

(b) On this plan a candidate whose school record has been approved may receive permission to satisfy the examination requirements by comprehensive examinations in not less than four subjects approved by the committee on admission. The comprehensive examinations in question must be those prepared by the College Entrance Examination Board or by Columbia University.

In passing upon the result of these examinations the detailed school record of the candidate is taken into account and given great weight.

The examination requirements for admission under the old plan may be satisfied by any one of the three following means, or by any approved combination thereof; the examination grades are interpreted in the light of the record which the student has made in school. The record for each subject must be filed with the Director of Admissions.

1. The examinations of the College Entrance Examination Board held at Columbia University and at about 150 other educational centers in the United States and Europe.

2. The examinations conducted at Columbia University by the Committee on Admissions.

3. The examinations of the New York State Examination Board in so far as their subject matter specifically corresponds to the stated requirements of the several undergraduate schools. These examinations are held in January and June at more than 600 high schools and other institutions in the State, but are ordinarily open only to students in those schools. A grade of seventy-five per cent will ordinarily be required in these examinations.

CREDITS

A candidate may present himself at any of the series of examinations scheduled above, but at not more than four in all, and the results may be credited toward entrance, subject to the following restrictions:

The results of an examination may stand to the candidate's credit twenty-nine months, but no longer. The reports of candidate's examinations and the School's statement of preparation must be in the hands of the Director of Admissions one week prior to the opening of the term in September or February.

SUBJECTS FOR EXAMINATION

Columbia University recognizes the following examination subjects which may be offered for admission to one or more of the colleges and schools included in the University, each subject counting for a specific number of units as indicated in parentheses.

The units here represent the number of years, at the rate of five periods per week, which will normally be required in the secondary school to prepare adequately for the college examination.

The following abridged statements give the general scope of the requirements in each subject. It should be noted that in several cases an examination subject outlined below will not be accepted toward admission to every school of the University. A candidate or teacher should compare the list carefully with the statements of the requirements of the school in which he is particularly interested.

COLUMBIA COLLEGE, the oldest part of the University and in a sense the mother of the rest, offers a program of studies leading to the degree of Bachelor of Arts.

Entrance. For the details of admission to the Freshman Class, see pp. 299 et seq.

Advanced Standing. A candidate for admission to advanced standing upon basis of work done at another college, should obtain and file not later than August 1 or January 1 preceding the session in which he desires to enter, the appropriate application blank, with a transcript of his academic record, and a marked catalogue of the institution that he leaves.

Appropriate credits up to a maximum of 18 points of the 124 required may be made by Freshmen who have passed entrance examinations over and above the minimum entrance requirement of 15 units.

Special Courses. Students of serious purpose who are in a position to fulfil the requirements for admission to the Freshman Class or who have had a valuable educative experience in practical life, may be admitted as non-matriculated students to pursue courses without reference to any degree. For details see the current *Announcement of Columbia College*.

Registration and Fees. For information with regard to Registration and Fees, see Index.

Scholarships. For information with regard to scholarships, prizes and medals, see Index.

Program of Studies. The period within which the requirements for the degree of A.B. may be satisfied varies with the capability and industry of the individual student. In most cases four years are spent in making the required number of points; students of ability and industry frequently complete the course in less time, especially if advantage be taken of courses in the Summer Session, or additional credit be gained by high standing; no student may spend more than six years as a candidate for a degree.

General Regulations. The requirement for graduation is 124 points, the term "point" signifying the satisfactory completion of work requiring attendance each half-year of one hour weekly in lectures, recitation, or honors conference, or a correspondingly longer period in laboratory or drafting-room.

Admission to courses depends strictly upon completion with the grade of C or better of the stated prerequisites.

A student in good standing is permitted upon completion of 94 points to elect approved graduate courses which his previous training will enable him to pursue with profit.

To be recommended for a degree, a student must have made at least 84 points in actual college residence, and of these at least 24 in Columbia College. (Supplementary details are given in the current *Announcement of Columbia College*.)

In the administration of the College regulations, it is the policy of the Committee on Instruction and of the Dean to be guided in the treatment of individual cases largely by the recommendation of the adviser, and by the general attitude of the student in question toward the College, *i. e.*, whether or not he has proved himself a creditable member of the college community, as shown by regularity in attendance, promptness in the fulfilment of his obligations, earnestness in his endeavor to profit by his college opportunities, both direct and indirect, and by consideration of others.

Degree with Honors. Students not exercising professional option may become candidates for General Honors. At least two years before graduation the student shall consult with the Dean or with a Director of Honors Work regarding the desirability of his declaring his candidacy for Honors.

If his candidacy is accepted, he shall (a) pursue a course of reading in common with other candidates for Honors, and (b) pursue a course of independent study in some field of knowledge which he may choose.

All such candidates for Honors will meet with the Honors Director Wednesday evening each week for a discussion of their common reading, will submit at least one written report involving individual work in their chosen subject in each of the four terms of their Honors course, and will finally be examined in the entire field of their Honors work.

Students who are not candidates for General Honors but who complete with high distinction a sequence of studies in a single department, which sequence has been approved for the purpose by the Committee on Instruction, may on receiving their degree be awarded Honors in the subject of their sequential work.

For Degree without Honors. Unless the equivalents have been offered for admission, the following courses are prescribed for students who are candidates for a degree.

(a) *English A; Mathematics; Contemporary Civilization A; Physical Education A and B*, one year of Laboratory Science, except for students offering Physics and Chemistry for entrance, and in addition:

- (b) 1. One year of College work in Latin or in Greek beyond the entrance requirement, and in addition *French B, Spanish B, or German B*, or
2. One year of College work in French, Spanish or German beyond course *B*, or

3. Completion of the stated entrance requirements for the College of Physicians and Surgeons, followed by the exercise of professional option in that School, and in addition:

(c) Prior to graduation the student must have completed the equivalent of three years of sequential study, in courses aggregating at least 18 points beyond the elementary requirement for admission, in each of two departments.

These prescriptions amount to a total of from 26 to 55 of the 124 points required for the degree, depending upon the student's offering at entrance and his college program.

Professional Options. Upon receiving the number of points in Columbia College specified below, a student may take studies in the first year of either of the following professional schools of the University, provided he can satisfy the stated requirements for admission thereto, and may receive a Bachelor's degree on recommendation of the professional school of his choice upon the satisfactory completion of two years' work in that school:

School of Business, 64 points

School of Journalism, 64 points

Combined Courses. Upon receiving 94 points, 64¹ of which must be for work in Columbia College, including all of the work prescribed for the degree in Columbia College, a student may take studies in the first year of any one of the following professional schools of the University, provided he can satisfy the stated requirements for admission thereto, and will receive the degree of Bachelor of Arts from Columbia College upon the satisfactory completion of the year's work:

School of Architecture

School of Business

School of Dentistry

School of Journalism

School of Law

School of Medicine

Schools of Mines, Engineering, and Chemistry

No course may be counted toward a professional degree and at the same time be included among those which go to make up the 94 points referred to above.

Students may also, under suitable circumstances, offer toward the Bachelor's degree courses given at the General Theological Seminary; or if they are within 12 points of receiving the Bachelor's degree, they may take certain graduate courses in addition to their undergraduate programs.

Miscellaneous. All students admitted with conditions are assigned for advice to the Committee on Admissions until such time as their entrance deficiencies are removed. All candidates for honors are assigned for advice to a representative of the department in which they first elect honor work. Special advisers are designated for students looking forward to law, medicine, engineering, business, journalism, dentistry, theology and to the non pre-professional group, respectively.

The student's performance in a course is reported according to the following grades: A, excellent; B, good; C, fair; D, deficient, but subject to improvement in grade by re-examination; F, failure.

¹In exceptional cases, students of high scholarship who have completed two years of college work elsewhere may satisfy the residence requirement by the completion in Columbia College of 34 points, with an average of B. Work done in the Summer Session or University Extension may not be included in these 34 points.

The grade of D is not a passing grade, and does not count for credit toward the degree. In case a mark of D is raised by a deficiency examination to a C or higher, full credit for the course is granted.

The mark A in six points of college work completed in any session entitles a student who has not fallen below the mark B to one point of extra credit.

Matriculated students whose record as to entrance conditions and the completion of prescribed courses is satisfactory to the Committee on Instruction are classified as follows:

Freshmen, those who have less than 26 points

Sophomores, those who have completed 26 points

Juniors, those who have completed 58 points

Seniors, those who have completed 88 points

UNIVERSITY UNDERGRADUATES

In the interest of mature students the University adopted in October, 1920, a plan whereby the work of the University in its several divisions is made more fully accessible to properly qualified students who may be candidates for a bachelor's degree, but whose needs are not fully met by the provisions of the undergraduate colleges. Such students are designated "UNIVERSITY UNDERGRADUATES," as distinguished from College undergraduates and from graduate students. They must comply fully with the requirements for admission for Columbia College (or in the case of women, for Barnard College). Evidences of maturity may be the age of twenty-one years or more, the satisfactory completion of two or more years of college work elsewhere, special proficiency in some study, etc. They may, with permission, take work in Columbia College, and with certain restrictions, in the Summer Session and in University Extension. Provided they are entitled to senior standing, they may take certain courses offered by the Faculties of Political Science, Philosophy and Pure Science. On completing the requirements provided for such students, they will be granted the degree of Bachelor of Science in General Studies on the recommendation of the University Council.

Announcement of Columbia College. The following additional matters are dealt with in the current *Announcement of Columbia College*, which may be had upon application to the Secretary of the University: Description of Hamilton and Hartley Halls. Advice as to choice of studies. Regulations governing absences. Statement of courses which may be taken by the College students with their prerequisites. Personal relations of students. System of examinations. Records and reports. Schemes of attendance and recommended programs for students having particular ends in view. Scholarships and prizes.

SCHOOL OF LAW

FACULTY

President BUTLER.

Dean SMITH.

Professors BERLE, BONBRIGHT, CANFIELD, CHAMBERLAIN, DEWEY, DOWLING, GOEBEL, HALE, HANNA, HYDE, JACOBS, JESSUP, JERVEY, LLEWELLYN, MAGGS, MAGILL, MATHEWS, MEDINA, MICHAEL, MOLEY, MOORE (U.), OLIPHANT, PARKINSON, PATTERSON (E. W.), POWELL (R. R. B.).

Delegates to the University Council (see page 7).

PURPOSE

The School of Law, which was established in 1858, aims to afford a thorough, practical, and scientific education in the principles of: The common and statute law of the United States; the English and American system of equity jurisdiction; the public law of the United States and Europe; the Roman law—ancient and modern; theoretical and comparative jurisprudence.

ADMISSION

All students desiring admission to the School of Law should communicate with the Director of University Admissions, Room 321 University Hall, who will furnish application blanks and complete information concerning the requirements for admission.

All applicants for admission, except candidates for graduate degrees and in some cases applicants for admission to advanced standing, will be required to take a capacity test in addition to submitting transcripts of their college records. For the convenience of applicants residing outside the metropolitan district, the capacity test will be given each year during the second week of May at the principal colleges and universities throughout the United States. Applicants who do not take the capacity test in May will be required to take it in September at Columbia University. Only those applicants will be admitted who, on the basis of their college records, their scores made on the capacity test, and such other pertinent data as may be available, give promise of doing thoroughly satisfactory work.

No applicant will be admitted who, having previously attended another law school, has failed to maintain in such other school standards of scholarship satisfying the requirements of this School.

LL.B. Candidates. Only those applicants for admission as candidates for the degree of Bachelor of Laws will be considered who, prior to the time at which they desire to begin their work in the law school, have (a) graduated from an approved college or scientific school of collegiate rank or (b) successfully completed at least three years of undergraduate study in an approved college or scientific school, which course of study must have included satisfactory courses in Economics and in English and American History or the equivalent of such training and (c) in addition to compliance with the conditions stated in (a) or (b) above have taken the capacity test.

Advanced Standing. Applicants who qualify for admission to the school and who have successfully pursued the study of law in an approved law school, may be admitted with advanced standing on such conditions as may be prescribed by the Faculty. Applicants for admission with advanced standing shall be required to take the capacity test unless, in the opinion of the Faculty Committee on Selection of Students, the work

of the applicant completed in another law school affords satisfactory evidence of the applicant's capacity. The amount of credit which will be given for work completed in another law school will depend upon the standards of the school, the work completed therein and the grades received by the applicant. No credit will be given for work completed in a law school which is not a member of the Association of American Law Schools.

Non-Matriculates. A limited number of applicants who are at least twenty-one years of age and have successfully completed less than three years but at least two years of undergraduate study in an approved college or scientific school of collegiate rank, may be admitted as non-matriculated students on presentation of such evidence as the Faculty may require of their exceptional fitness to undertake with advantage the study of law. Such applicants shall be required to take the capacity test.

LL.M. and J.D. Candidates. Only those applicants for admission as candidates for the degree of Master of Laws or the degree of Doctor of Law will be considered who, prior to the time at which they desire to begin their work in the law school, have (a) graduated from an approved college or scientific school of collegiate rank or (b) successfully completed at least three years of undergraduate study in an approved college or scientific school, which course of study must have included satisfactory courses in Economics and in English and American History or the equivalent of such training and (c) in addition to compliance with the conditions stated in (a) or (b) above have successfully completed three years of study in an approved law school and have obtained a first degree in law. In the case of candidates for graduate degrees, the capacity test is not required. The admission of such students will be determined upon the basis of their college and law school records and such other pertinent data as may be available.

COURSE OF STUDIES

The curriculum leading to the degree of Bachelor of Laws covers a period of three academic years. The work of the first year is prescribed. The studies of the second and third years are elective except that admission to seminars is limited to students of high standing and subject to the professors' approval. Each student shall register for courses amounting to not more than fourteen nor less than twelve class hours per week unless, in view of special circumstances, he is given permission by the Dean to register for less than twelve hours. In no case will residence credit be given for less than ten class hours per week.

The program of studies of non-matriculated students must be approved by the Dean.

The program of studies of candidates for graduate degrees is prescribed in each case by the Faculty Committee on Graduate Instruction after consultation with the candidate.

In order to afford adequate opportunity for original and independent work by exceptionally qualified students, second and third-year men who, on the basis of their previous work in the school, have demonstrated their exceptional ability, may register for seminars.

EXAMINATIONS AND GRADES

1. Written examinations are held at the end of each Session on the subjects completed during that Session.

2. All students, whether matriculated or non-matriculated must present themselves for examination in all subjects for which they are registered at the examination held upon completion thereof unless excused by the Dean. In case a student is excused from taking an examination, he must take the next examination offered in such subject.

If the content of the course is changed prior to the giving of the examination which such student takes, the student will be required to prepare himself upon the altered content of the course; and if the content of the course is redistributed or omitted so that no examination is thereafter given which fairly covers the general subject matter of the course, such student may be required to take an additional course in lieu of the course in which no examination was taken. A student permitted to take a deferred examination must pay a fee of three dollars.

3. The standing of students will be indicated by the letters A, B, C, D, and F, representing Excellent, Good, Fair, Poor, and Failure, respectively. These grades will be recorded in the office of the Registrar, and will be reported in writing to the students as soon as possible after each examination. Point credit will be given for courses in which a grade of D or better is received.

4. A student receiving a grade of F in a required course of the first year will not be permitted to continue in the school unless within one year after such grade is received the student receives a grade of D or better in such course. Such student may, at his election, repeat the course in its entirety or take a re-examination at any examination period within a year when an examination therein shall be regularly given. If the content of the course is changed prior to the giving of the examination which such student takes, the student will be required to prepare himself upon the altered content of the course; and if the content of the course is redistributed or omitted so that no examination is thereafter given which fairly covers the general subject matter of the course, such student may be required to take an additional course in lieu of the course in which the grade of F was received.

5. A student receiving a grade of F in a course other than a required course of the first year, will not be permitted to take a re-examination therein without repeating the course. Such student is not required to repeat the course but may, at his election, do so if the course is again offered; in which case both the grade of F and the grade received upon repeating the course will be included in the student's record.

6. For the purpose of determining the eligibility of students to remain in the Law School, every student registered in the school will receive at the end of each year of residence a numerical average grade based on all grades received during that year. No student who receives an average grade exceeding 3.25 in the course for which he is registered during any one year will be permitted to continue in the school or to be a candidate for a degree. The average grade for each year shall be computed by assigning to the grades received during the year the following values: A = 1, B = 2, C = 3, D = 4, and F = 6. In case a student is absent from the examination in any subject for which he is registered his grade in that subject shall be counted as F for the purpose of determining his numerical grade unless such absence is excused by the Dean. In case a student is permitted to postpone an examination he must take the next examination given on the subject and his average for the year during which the course was taken shall then be computed.

Grades received on deficiency examinations taken in required courses of the first year in which the student has previously received a grade of F shall be included in computing the average grade of the student for the year during which such deficiency examinations are taken. Grades received in a Summer Session shall be combined with the grades of the following Winter and Spring Sessions in computing the yearly average grade.

DEGREES

A degree will not be awarded unless the preliminary qualifications of the student are approved by the Director of University Admissions, and the student is matriculated by the Registrar as a candidate for the degree. A period of regular attendance upon

all stated academic exercises amounting to at least one academic year must be completed by every candidate for a degree.

Bachelor of Laws. 1. The required work for the degree of Bachelor of Laws consists of seventy-six points, each point representing the satisfactory completion of work requiring attendance one hour a week for a Winter or Spring Session.

2. This requirement must be satisfied by three years of residence, the program of studies for the first year of which is prescribed. Residence is defined as attendance upon courses amounting to not less than the equivalent of twelve hours per week. Special permission may be granted by the Dean for programs of less than twelve hours per week. This permission will be granted only in extraordinary cases, and in no case will attendance during a Winter or Spring Session constitute residence where less than ten hours per week shall have been taken.

3. Students registered in the law school of the Summer Session of the University will receive credit not exceeding seven points in any one year for law courses successfully completed by them. Attendance at a Summer Session will be deemed equivalent to one quarter year's residence where credit for four or more points has been received during such Summer Session.

Students may, with the approval of the Dean, obtain a limited amount of point and residence credit for work satisfactorily completed in Summer Session of other approved law schools.

Not more than one half year's residence credit may be obtained by attendance at Summer Sessions.

4. Non-matriculated students who have completed the point and residence requirements for the degree may become candidates for the degree if they shall have maintained a numerical average of 2.5 or less during their residence in the school.

Master of Laws. For regulations with regard to the degree of Master of Laws, see Index.

Doctorate in Law (Doctor Juris.). For regulations with regard to the doctorate in Law, see Index.

Other Degrees. The degrees of Master of Arts and Doctor of Philosophy are also awarded for work done in part under the Faculty of Law. (See Index.)

LAW LIBRARY

The Law Library now contains upwards of 145,000 volumes, and annual additions are made of about 8,000 volumes. The collection is especially rich in the legal literature of the United States, of the British Empire, and in documents and treatises on international law. It contains also about 30,000 volumes of foreign law, a field in which numerous additions are made annually. The legal literature published in serial form—laws, reports, periodicals,—of the entire world, is largely represented, and these series are regularly kept up to date. The library is therefore equipped not only for the ordinary needs of law students, but is fast becoming a centre for research by scholars in law.

Historical. King's College—the original foundation of Columbia University—organized a Medical Faculty in 1767, and was the first institution in the North American Colonies to confer the degree of Doctor of Medicine in course. The first individuals to graduate in medicine from the College were Robert Tucker and Samuel Kissam, who received the degree of Bachelor of Medicine in May, 1769, and that of Doctor of Medicine in May, 1770, and May, 1771, respectively. Instruction in medicine was given from this time on until the work of the College was broken up by the War of the Revolution. In 1784 an act was passed making Columbia College in the City of New York the successor of King's College, and instruction was resumed in the academic department. Eight years later the Medical Faculty was re-established, and was continued until 1813, when the Medical Faculty of Columbia College was merged in the College of Physicians and Surgeons, which had received an independent charter in 1807. In 1860, by agreement between the Trustees of the two institutions, the College of Physicians and Surgeons became the medical department of Columbia College, and from that time on the diplomas of the graduates were signed by the President of Columbia College as well as by the President of the College of Physicians and Surgeons. The connection was only a nominal one, however, until 1891, when the College was definitely merged in the University.

Location and Equipment. The College of Physicians and Surgeons was first situated at 18 Robinson Street, from 1807 to 1809. From 1809 to 1813 it was at 12 Magazine Street; from 1813 to 1837 at 3 Barclay Street; from 1837 to 1856 at 67 Crosby Street; and from 1856 to 1887 at 101 East Twenty-third Street. From 1888 until 1928 it occupied a group of buildings which stand upon thirty contiguous lots of land, bounded on the south, west, and north by Fifty-ninth Street, Amsterdam Avenue, and Sixtieth Street, respectively.

Alliance with the Presbyterian Hospital. The two institutions have erected new buildings in close geographical and functional relationship at 168th Street between Broadway and Ft. Washington Avenue. These were first occupied in the Spring of 1928 and provide more extensive and convenient quarters for both the School of Medicine and the Hospital. Sloane Hospital for Women occupies three floors of the main hospital building. The Vanderbilt Clinic has been moved and has become the common Out-patient Department for all the affiliated hospitals. The State of New York has practically completed a 200 bed Psychiatric Hospital which will soon be open for patients and the Research Institute is being moved from Ward's Island to the new buildings. This will offer very unusual facilities to the students and staff of the College of Physicians and Surgeons for experience in this important branch of Medicine. The Neurological Institute and the Babies' Hospital have started construction on new buildings which will house these two institutions. It is expected that both will be completed during the coming academic year.

Library. The new buildings contain a much greater space for the libraries of the College of Physicians and Surgeons which have all been merged into one. It contains 15,000 volumes, 12,000 reprints and 18,000 dissertations. There is stack room space for about 100,000 volumes. The library is open on week days from 9 a. m. to 5 p. m.

Crocker Laboratories. The Crocker Laboratories were established by a legacy in 1911 from the late Mr. George Crocker for the purpose of conducting investigations on the subject of cancer. The laboratories are situated at 1145 Amsterdam Avenue on the northeast corner of 116th Street. The building is a three-story and basement, fireproof structure of brick and concrete, erected by the trustees of the University to afford greater facilities for the workers in the Fund than could be obtained in the present buildings of the College of Physicians and Surgeons.

The object of the Fund is the promotion of research in the diagnosis, cure, and cause of cancer. Voluntary workers who have had suitable preparation in pathological histology and pathology are welcome and will be given sufficient instruction to enable them to pursue, in a satisfactory manner, some phase of cancer research. Formal courses in pathological technique and tumor biology also will be offered by the staff.

The investigations in Cancer are carried on by the Institute of Cancer Research, founded 1921. The Institute also receives support from the L. A. Van Praag Fund, established in 1915, and the Emil C. Bondy Fund, established in 1916.

Vanderbilt Clinic. The Vanderbilt Clinic has been moved to its new quarters and in addition to continuing its former function as a dispensary for the ambulant sick, has become the Out-patient Department of all the affiliated hospitals of the group. The staff of the Clinic is made up entirely of members of the teaching staff of the Medical School.

Sloane Hospital. The Sloane Hospital for Women has been moved from its former site at Fifty-ninth Street and Amsterdam Avenue to the new buildings at 168th Street. It occupies three floors of the main hospital building and shares in the

private pavilion. It provides a generous supply of clinical material for both Obstetrics and Gynecology. In recent years the hospital has averaged 1800 deliveries each year.

The Institute of Public Health. The primary function of the Institute of Public Health is to contribute to the education of physicians and to train personnel for the various professional careers in Sanitary Science. Its teaching staff participates also in the training of nurses qualifying for a public health career in the required courses at Teachers College, and in the education of teachers and executives of health agencies through the medium of University Extension and Summer Session courses.

It offers instruction in Epidemiology, Industrial Hygiene (with its two divisions of Physiology and Medical Practice) Public Health Administration and Sanitary Science.

Other subjects usually included in the curricula of schools of public health and hygiene are adequately provided for within existing University departments; Sociology and Vital Statistics, Bacteriology, Immunology, Physiology, Protozoölogy, Parasitology is to be arranged for in the Institute of Tropical Medicine.

Hospital Clinics. The College is strongly represented on the staffs of many of the general and special hospitals of New York. In them, either required or optional practical instruction is given by clinical lectures, in the operating room, in the dispensaries and at the bedside, all of which are prominent features of the curriculum. These hospitals are as follows: Bellevue, Presbyterian, New York, St. Luke's, Mt. Sinai, City, Lincoln, New York Orthopedic Hospital, St. Mary's Free Hospital for Children, Willard Parker Scarlet Fever and Reception, New York Eye and Ear Infirmary, the Babies' Hospital, Herman Knapp Memorial Eye Hospital, and the Montefiore Hospital. For a detailed statement, see the current *Announcement of the College of Physicians and Surgeons*.

Plan of Instruction. The course for the degree of M.D. must begin with the Winter Session. The requirements for admission are given elsewhere, but too much stress cannot be laid upon the desirability of a student fulfilling the spirit as well as the mere letter of these requirements.

In the arrangement of the different branches of the medical instruction, a logical order of the main themes and a coordination in the work of each department have been sought after, enabling the student to concentrate his attention upon some one subject and to be so familiar with it that the allied subjects next to be taken up shall be readily understood. The salient features in the method of instruction are thorough laboratory training, frequent demonstrations, clinical teaching at the bedside, as well as in the dispensaries and in the operating theaters, with recitations and lectures to elucidate the many problems confronting the students.

First Year. During the first year the time of the student is devoted to anatomy, including neuro-anatomy, histology and embryology, which is carried on by numerous demonstrations to sections and by long periods of uninterrupted work in the dissecting room. Physiology and biochemistry are taught by lectures, demonstrations, recitations and practical work in the laboratory. Anatomy, biochemistry and physiology are completed in the first year.

Second Year. During the second year bacteriology, general and gross pathology, and pharmacology will be completed. Courses in the principles of surgery, physical diagnosis and clinical microscopy and psychiatry will also be given, leading up to the work of the third year.

Third Year. The third year will continue with conferences in medicine and surgery, gynecology, diseases of children and therapeutics. There are theoretical or clin-

ical lectures, demonstrations, diagnostic clinics, operative clinics and follow-up clinics in medicine, surgery, obstetrics, gynecology, neurology, psychiatry, diseases of children, ophthalmology, and oto-laryngology. The class is divided into small groups for instruction in physical and medical diagnosis, and for practical work in the special branches of medicine and surgery at the various dispensaries and hospitals.

Fourth Year. During the fourth year the student spends most of his time in the hospitals and dispensaries of the city. Consequently, although a few general and clinical lectures are given, the work is almost entirely practical and bedside instruction. Divided into small groups, the students continue to come into personal contact with patients, under the supervision of the instructor. In the diagnostic clinic they have the opportunity of applying the various methods of precision whose principles they have studied in earlier years; and they are expected to become familiar with the history of a case, to make a complete physical examination, to form a diagnosis, to give a prognosis, to advise treatment, and to watch progress. In the course in surgery the witnessing of numerous major and minor operations is supplemented by an optional course in which the student is taught operative technique. For an obstetrical service, the facilities of the Sloane Hospital for Women, and the Out-patient Obstetrical Department, offer excellent opportunities. The student is required to spend five weeks at the Sloane Hospital for Women and personally attends a certain number of cases of labor. The courses in diseases of children includes didactic lectures to sections, bedside instruction and out-patient work in wards and dispensary of the Bellevue, Presbyterian, St. Luke's and St. Mary's Hospitals, and Vanderbilt Clinic, where exceptional advantages are enjoyed by the student for studying all forms of acute disease in infants and young children. The course is rounded out by personal instruction in the more special branches of medicine. In these branches the student is taught how to use many instruments of precision and to recognize and treat many of the rarer forms of disease. Courses in the wards of the Presbyterian and Bellevue hospitals are required of fourth-year medical students. These courses consist of work in the wards of the hospitals, during which the students serve as clinical clerks in medicine or surgery and become, for the time, members of the regular staff.

Requirements for Admission. No definite information regarding eligibility can be given until the completed application blank has been filed by the applicant at the Office of the Dean.

No definite information regarding acceptance of any applicant will be given prior to June 1 of the year in which he desires to enter.

It is desirable that candidates make application before March 1, as on or about May 1 the Committee on Admissions will act upon all applications received up to that date. Application blanks will be furnished by the Dean's Office of the College of Physicians and Surgeons.

A collegiate course of four years leading to a Baccalaureate degree is considered the most desirable preparation for those expecting to undertake the study of medicine.

The minimum requirements which will be accepted for admission are attendance for two full years of at least seven months each at an acceptable college of arts and sciences, comprising 72 points as rated by Columbia College. The courses taken at college must include the following:

1 year Physics, aggregating 8 semester hours or more.

1 year Inorganic Chemistry, based on college entrance Chemistry, aggregating 6 to 10 hours.

$\frac{1}{2}$ year Qualitative or Quantitative Analysis, at least 4 hours.

$\frac{1}{2}$ year Organic Chemistry, at least 4 hours.

1 year Biology, aggregating 6 semester hours or more.

2 years English, aggregating about 10 hours.

2 years French or 2 years German, comprising one year of advanced French or German which has been preceded by 2 years' study of the same language in high school, or by one year's study of the same language in college. No other language can be substituted.

Suitable laboratory work must be included in each of the courses in science.

The following credentials must be submitted at, or mailed to the Dean's Office, College of Physicians and Surgeons.

1. Application for admission (blank furnished by this School on request). Transcript of courses taken, or to be taken, must be entered on this blank.

2. An official transcript of college record, showing entrance credits, courses taken and grades received. This is not required till the courses offered for admission are completed, unless specific request for it is previously made.

3. Three unmounted photographs (size about 2 x 2 inches) of applicant, without hat. (Must show only head and neck.)

The following must be mailed to New York State Department of Education, Albany, New York.

1. A properly executed oath of allegiance and application for qualifying certificate (blank furnished by this School on request.) This is required by the New York State Department of Education and is forwarded to them with the one dollar fee in requesting issuance of Medical Student Qualifying Certificate for the applicant.

2. Official transcripts of High School records must be furnished *only* in case the college record *fails* to show the college entrance credits.

3. In addition to the above credentials the applicant must furnish a fee of one dollar (check or money order drawn to order of the University of the State of New York, and forwarded with Application for Qualifying Certificate) covering cost of issuance of a Medical Student Qualifying Certificate.

A Medical Student Qualifying Certificate, which is the official evidence of the fulfillment of the requirements of the State, must be authorized before the student begins the first annual medical course counting towards a medical degree. This precludes the admission of conditioned students.

The State Department of Education will issue a Medical Student Qualifying Certificate only upon receipt for evaluation of the application for Qualifying Certificate (mentioned above) properly filled out and certified to by the College at which pre-medical courses were taken.

Owing to the limited number of students who can be accommodated, completion of the requirements for entrance does not guarantee admission. The entire premedical record of each student is carefully examined by the Committee on Admissions in order that those who are adjudged most capable of meeting the exacting demands of the course and of the profession of medicine may be selected.

It is highly desirable that all applicants for admission to this school shall report at the Dean's Office for a personal interview some time prior to the action of the Committee on Admission, preferably before April 15.

Combined Courses with Other Universities. The University of Rochester, Colgate University, and Hobart and Ripon Colleges, will confer the bachelor's degree upon students who have elected and successfully completed the first year at the College of Physicians and Surgeons in lieu of the senior year in those colleges.

Admission to Advanced Standing. Students will not be admitted to advanced standing upon examination, but only upon a satisfactory record from their school of previous residence. Provided they are eligible for the Medical Student Qualifying Certificate required by the New York State Department of Education and can submit evidence of the satisfactory completion of the entrance requirements as stated on page 317, candidates who have completed, without condition, one or two years of study in a Grade A medical school are eligible to apply for admission to the Second or Third Years respectively.

Owing to the lack of uniformity in the arrangement of the First and Second Year curricula in the various medical schools a transfer can usually be accomplished with the least adjustment at the end of the Second Year.

The following credentials must be submitted to the Dean's Office, 630 West 168th Street:

1. Application for admission (blank provided by this School on request) completely filled out.
2. Official transcript of college record including college entrance credits should be sent in with application blank.
3. Three unmounted photographs (size about 2 x 2 inches) of applicant, without hat. (Must be head and neck only).
4. A properly executed oath of allegiance and application for qualifying certificate (blank provided by this School on request).
5. Official transcript of medical school record must be submitted *on completion* of courses taken.
6. A properly executed advanced standing blank, required by the State of New York (blank furnished by this School) must be executed by proper official of Medical School of previous residence *on completion* of college years certified.
7. In addition to above credentials applicant must furnish a fee of one dollar, check or money order drawn to order of the University of the State of New York, covering cost of issuance of Medical Student Qualifying Certificate.

Admission to the Fourth Year is limited to students who have already secured the degree of Bachelor of Arts or Science and of Doctor of Medicine from a Grade A medical school. Applicants for admission to the Fourth Year must furnish these credentials in addition to the others required for advanced standing.

Admission of Special Students. Students who desire to pursue a special course without graduation may matriculate as special students, only after approval by the head of the department conducting the course and by the Dean. Such special work will not count in any way as part of the course required of candidates for the degree of Doctor of Medicine. The State Department of Education will not permit courses so taken to count towards the degree of M. D.

Post-Graduate Instruction. A few courses are open to graduates in medicine. For further information see departmental statements and write for special bulletins.

Summer Session (July 9–August 17, 1928). Courses in the Summer Session are open to all properly qualified students. They will not count toward the degree of Doctor of Medicine, for those who are students at the College of Physicians and Surgeons, or those who, being eligible for admission to advanced standing, have not had in their previous course of study any of the subjects offered. Courses in the Summer Session cannot be accepted from students prior to matriculation in the College of Physicians and Surgeons to fulfill omissions in their work. Such courses cannot be offered to supply deficiencies caused by failures of required courses in other medical schools. Such courses cannot be offered to anticipate work required from students of

equal rank. The following courses offered in Summer Session are similar to but not equivalent either to courses required or elective in the Winter and Spring Sessions; *Bacteriology*, Dr. COULTER and instructor; *Morphology and Biology of Tumors*, Professors WOOD and WOGLOM; *Laboratory Diagnosis*, Dr. JESSUP and assistants; *Neurology and Neuro-anatomy*, Professor TILNEY and assistants; *Histology*, Dr. ENGLE. For full particulars and an *Announcement of the Summer Session* apply to the Secretary of Columbia University.

Requirements for Graduation. The course for the degree of Doctor of Medicine consists of the subjects shown in the Summary of Studies (p. 321), all of which are required. Elective courses are not counted for credit toward the degree.

In addition to complying with the requirements for admission and to completing the required work of the curriculum, each candidate for the degree of M.D. must present satisfactory evidence, as required by law, of good moral character, and of having attained the age of twenty-one years. If the candidate shall have been admitted to advanced standing, he must have spent not less than four academic years (no two of which shall have begun during the same calendar year) in an approved medical college in the study of the subjects making up the curriculum of the School of Medicine.

Students who elect the combined course of seven years in Columbia University will receive the degree of A.B. from Columbia College upon the completion of the first year of the medical course.

Scholarships, Fellowships, and Prizes. (See Index.)

Equipment. Detailed information as to the laboratories, collections, and other facilities for study will be found in the statements of the various departments of instruction, page 132 *et seq.*, and more fully in the current *Announcement of the College of Physicians and Surgeons*.

COMMITTEE ON INSTRUCTION

The Dean (*Chairman*), Professors FINCH, HARRINGTON, HIXSON, MORECROFT, RAUTENSTRAUCH, SEVERINGHAUS, TAGGART, and THURSTON.

Delegates to the University Council (see page 7).

The Trustees of Columbia University, in accordance with the unanimous recommendation of the Faculty of Applied Science, determined in 1912 to raise the requirements for admission to the Schools of Mines, Engineering, and Chemistry, and generally to elevate and strengthen the course of engineering and technical study, from and after July 1, 1914. These schools at that time became advanced schools to which students of any branch of engineering, who have had a suitable preliminary training in a scientific school or college, may come for the highest type of professional instruction and for training in methods of research. The undergraduate school of the University, Columbia College, was at the same time called upon to conduct instruction in the best program of studies that could be devised for a general and scientific education preparatory to the strictly technical and professional studies of the latter part of the engineering curriculum.

Columbia University offers the following programs of study in engineering:—

1. A four year curriculum in each of the main branches of engineering leading to the degree of Bachelor of Science as the first professional degree.
2. A further curriculum of a year of more specialized study leading to the degree of Engineer of Mines, Metallurgical Engineer, Civil Engineer, Electrical Engineer, Mechanical Engineer, Chemical Engineer or Master of Science (in Industrial Engineering).
3. A broader curriculum leading in four years to the Bachelor of Arts degree, in the fifth year to the engineering Bachelor of Science degree as above and in the sixth year to the degree of Engineer of Mines, Metallurgical Engineer, Civil Engineer, Electrical Engineer, Mechanical Engineer, Chemical Engineer or Master of Science (in Industrial Engineering).

The first two years of the four-year Bachelor of Science curriculum are the same for all branches of engineering. The admission prescription of 15 units includes: English, 3 units; Mathematics, 4 units; German, French, Spanish, Italian, Latin or Greek, 3 units or 2 units each of two; Chemistry, 1 unit; History, 1 unit.

The last two years before the B.S. degree and the additional year leading to the specified engineering degree are identical in the shorter and the longer course, so that there is perfect articulation between the two programs of study.

The last three years of the program of study constitute the strictly professional part administered under the Schools of Mines, Engineering and Chemistry; the preceding years the pre-professional part. In accordance with the educational principles and the administrative organization of Columbia University, at least the first two undergraduate years leading toward any professional degree are administered by Columbia College, which is organized properly to do this. Hence, engineering students at Columbia have the advantage of being members of the single undergraduate school for men in Columbia University until the completion of the first or pre-professional part of the curriculum; namely, two years of the B.S. course or the first three years of the combined A.B.-B.S. course. This pre-professional preparation may be obtained by the student in any good college if he is careful to arrange his course with a view to securing a sufficient amount of training in mathematics, physics, chemistry and mechanical drafting. A graduate of a four-year engineering course may usually expect to complete the work for the B.S. degree at Columbia in one year and for the specified engineering degree in not more than two years.

Admission to Professional Part of Course. Proper preparation for undertaking the work of the first year in the Schools of Mines, Engineering, and Chemistry requires that the student shall have had in his college or engineering school course:

1. English, history, economics and philosophy or acceptable substitutes.
2. Mathematics: advanced algebra, analytical geometry, year's course in differential and integral calculus.
3. Chemistry: one year of general inorganic chemistry, presupposing high school or entrance chemistry, followed for students intending to study chemical, industrial, metallurgical or mining engineering, by at least a half year's course in qualitative analysis.
4. Physics: one year of general physics, presupposing high school or entrance physics, and in addition courses in mechanics and electricity.
5. Mechanical drawing and descriptive geometry.
6. For students intending to study electrical or mechanical engineering a course in machine elements or shop work is desirable.

A good preparation for admission to the schools of Mines, Engineering, and Chemistry may be obtained in most of the better colleges of the country by a proper choice of electives. The college student wishing to fulfill the admission requirements should apply without fail to the Secretary of the University to be put in touch with the Committee on Admissions for advice regarding the proper courses to elect at his college to satisfy our admission requirements.

Preparatory Courses in Columbia College. The attention of students who wish to pursue a course in the Schools of Mines, Engineering and Chemistry is directed to the course in Columbia College, especially arranged for study preparatory to the work in engineering. See the current *Announcement of Columbia College*.

SUMMARY OF PROFESSIONAL COURSES OF STUDY

NOTE: Detailed tabular arrangements of each year of these courses will be found in the current *Announcement of the Schools of Mines, Engineering, and Chemistry*.

CHEMICAL ENGINEER

The courses of instruction leading to the degree in Chemical Engineering are laid out with the purpose of training men to develop and direct those industries and manufacturing operations and processes which are based on the applications of chemistry. This requires a broad knowledge of engineering, in addition to a thorough training in chemistry. Hence much attention is given to fundamental courses under the departments of mechanical, electrical, and civil engineering. It is sought to advance the student's knowledge of analytical, physical and organic chemistry, and the physical problems entailed in carrying out chemical reactions on a large scale. Due emphasis is also given to the design, inspection and management of factories.

Considerable time is devoted to actual manufacture on a semi-factory scale, with full reports on details of costs and yield as related to types of processes and equipment. The final thesis work involves library study, laboratory research and engineering application.

A reference to the detailed description of these subjects given under the Outline of Courses will show clearly and comprehensively the nature of each one of the topics included in it. It will be observed in those detailed descriptions that the effort is made to emphasize and ground the student in fundamental principles, especially in their applications to the practical matters of engineering work. The summer work in surveying is carried out at Camp Columbia, near Litchfield, Conn.

ELECTRICAL ENGINEER

The program for the three years of professional study in electrical engineering outlined below is based upon a definite plan of commencing in the first year with a broad training in the most important subjects of all branches of engineering, notably, chemical engineering, metallurgy, mechanical and civil engineering, intended to give the student a true perspective of engineering as a whole and an engineering point of view.

In the second year more specialized electrical engineering is introduced and less of allied subjects while finally in the third year almost all of the student's time is devoted to his chosen specialty.

The courses are designed to teach the principles rather than the details. They may be divided into three general classes: theoretical, technical and practical. The theoretical courses are given mainly by the Department of Physics, extend through the whole three years and are designed to give the student an insight into the applications of mathematics and physics to the fundamental principles of electrical phenomena.

Closely in parallel with the theoretical courses are the technical courses which show the applications of the principles discussed in the theoretical courses. These are intended to familiarize the student with the terms, practices, instruments and appliances of the profession. Problems are given which involve concrete applications of the principles learned.

The practical courses are those of the laboratory and the drafting room and their context is closely coordinated in time and subject matter with the theoretical and technical courses thus serving as illustrations and examples.

INDUSTRIAL ENGINEERING

This course of study occupies a period of three years, and is divided into four main groups. The business group embraces instruction in accounting, money and banking, business law, corporation, finance and business statistics. The machinery group embraces instruction in power machinery, thermodynamics, mechanical laboratory, machine design, and factory construction and equipment. The general engineering group covers the fields of metallurgy, strength of materials, industrial chemistry, electrical engineering, including alternating current machinery and physics laboratory. The industrial group deals with labor problems, factory management, analysis of selected industries, manufacturing processes, and the selection of manufacturing equipment for productive processes. About the same amount of time is spent with each of these groups of subjects.

During the two summer periods of the course the student is required to be employed in one or more of these industries, and his studies during these periods of service are directed toward both the good and bad practices to be encountered. Frequent reference is made in his subsequent studies to the reports he makes on these experiences.

Students completing course of instruction will be awarded the degree of Master of Science (in Industrial Engineering).

ENGINEER OF MINES

The instruction during the first year includes fundamental training in physics, mechanics, chemistry, mineralogy, geology, and engineering, as outlined in the program of studies. Instruction in the second and third years includes mining engineering, metallurgy, and advanced geology, and certain subjects in civil, mechanical, and electrical engineering.

The engineering, mining, and metallurgical laboratories are equipped to train the student in the making of scientific tests of engineering materials, and working tests of machines and processes of ore treatment, thus preparing him, as far as it is possible in the school, for work that he will be called upon to do as an engineer.

Practical instruction in summer classes in the field is made an important feature of the curriculum.

While much time is given to practical training in the laboratories, in the field, and at the mines and metallurgical establishments, care is taken to subordinate this instruction to a high standard of accomplishment in class-room work.

MINING GEOLOGY

The objects for which the course in Mining Geology is designed are set forth in the general statement preceding, and in the information circular of the Department of Geology.

The requirements which must be fulfilled in order to obtain the degree of Engineer of Mines in this course are given in the following list of studies for each of the three graduate years.

In general the course differs from the regular mining engineering course by the inclusion of much more study and field work in geology and less of mechanical and electrical engineering subjects. It is, however, a real engineering course and not simply a course in geology such as may well be taken by a graduate student specializing in that subject alone. While not all students taking this course will look forward to geological work as applied to mining, that application is so important as to justify the inclusion of such instruction in mining.

It is possible for men more fully prepared, or entering with advanced standing, to take additional graduate subjects both in engineering lines and in geology.

GRADUATE AND PROFESSIONAL DEGREES

REGULATIONS

In order to be admitted to the University under the Faculties of Political Science, Philosophy, or Pure Science, a student must hold a baccalaureate degree in arts, letters, philosophy, or science, or an engineering degree, from an approved institution, or have an education equivalent to that represented by one of these degrees.

Students are advised to ascertain, by addressing the Director of University Admissions, before coming to the University, whether the college from which the baccalaureate degree has been received is upon the list of institutions whose degrees are accepted by Columbia University as entitling the holder to admission under one of these faculties; or for a ruling upon an education claimed to be the equivalent of an acceptable Bachelor's degree.

A student who is graduated from a college which is not on the approved list should submit (1) an official transcript of his college record, showing the grades received in the several courses; and (2) a catalogue of his college in which he has marked (a) each of the subjects that he offered for admission, and (b) each course for which he has received credit toward the degree.

Students of mature age and special fitness whose previous education does not entitle them to admission as students under one of these faculties, may be admitted as students in the University, and, with the authorization of the Director of University Admissions, may register for courses under the control of these faculties. In general, students who do not hold the first degree or its equivalent are recommended to apply for admission to Columbia College, Barnard College, or the School of Practical Arts.

Every student is admitted subject to the disciplinary powers of the University.

No degrees are granted by the University for work done *in absentia*, and a minimum residence in the University of one academic year is required of every candidate for a degree. A year of residence under the Faculties of Political Science, Philosophy, and Pure Science is defined as registration for and attendance upon courses aggregating not less than thirty tuition points, distributed over a period of not less than one academic year or its equivalent. Four Summer Sessions or two Summer Sessions together with a Winter or Spring Session are equivalent to one academic year. In certain cases and by

special arrangement time exclusively devoted to investigation in the field will be credited in partial fulfilment of the residence requirement of candidates for the degree of Doctor of Philosophy.

Students in Professional Schools. A student holding the required first degree who is primarily registered in a professional school of Columbia University, or in the New York School of Social Work, may, with the consent of the faculty of such school, be registered under the Faculties of Political Science, Philosophy, or Pure Science. In case such a student is accepted as a candidate for a degree, he must conform to all the rules and regulations of these faculties; but he may offer as the equivalent of fifteen tuition points for residence for the degree of Master of Arts or in part fulfilment of the residence requirements for the degree of Doctor of Philosophy such of his professional courses as may be approved for such purposes by the Dean.

Doctor of Philosophy. A student admitted to the University under the jurisdiction of the Faculties of Political Science, Philosophy, or Pure Science, who wishes to become a candidate for the degree of Doctor of Philosophy, will be matriculated by the Dean upon the recommendation of the department in which his research work lies. Departments will recommend students for matriculation upon the following conditions:

1. The student must have pursued graduate studies in residence in this University or in some other institution approved by it for the equivalent of at least one academic year as defined in the regulations of the University.
2. The student must have satisfied the department that he is proficient in such languages as it may under the rules of the Faculty prescribe.
3. The student must have satisfied the department that he is prepared to undertake researches under its direction.

The Dean will admit a candidate for the degree to final examination and appoint a committee to examine him upon the recommendation of the department in charge of his work. Departments will recommend candidates for examination upon the following conditions:

1. The candidate must have pursued graduate studies and research for at least two academic years, one of which must have been spent at this University. The years of graduate study prior to his matriculation may be accepted in part fulfilment of this condition.
2. The candidate must have satisfied such preliminary examinations or requirements as the department may demand.
3. The candidate must have prepared a dissertation approved by the department and embodying the results of his researches. This dissertation must be printed either prior or subsequent to the final examination, as the department may require.

Students are advised to consult the divisional announcements and the administrative officers of the departments under which they are pursuing their studies, concerning the departmental requirements for admission to candidacy and for final examination.

Applications for the final oral examination for the degree of Doctor of Philosophy may be filed with the Dean at any time but not later than April 1 if the examination is to be held in the same academic year in which the application is filed. Examinations will be held not earlier than three weeks after the filing of the applications.

Each candidate for the degree of Doctor of Philosophy shall present a dissertation embodying the results of original investigation and research on some topic previously approved by the professor in charge of the major subject. When such dissertation has been approved, it shall be printed by the candidate, and 100 copies shall be delivered to the Librarian of the University before the degree is conferred. On the title-page of every such dissertation shall be printed the words, "Submitted in partial fulfilment of the requirements for the degree of Doctor of Philosophy, in the Faculty of —,"

Columbia University;" the full name of the author; the full title of the dissertation; the year and place of imprint, and, if a reprint, the title, volume, and pagination of the publication from which it was reprinted. There shall be printed and appended to each dissertation, in the form of a Vita, a statement of the place and date of birth of the author, of the educational institutions that he has attended, and a list of the degrees and honors conferred upon him, as well as the titles of his previous publications.

Under the Faculty of Political Science, the dissertation is required to be printed before the final examination is held.

Under the Faculties of Philosophy and Pure Science, the dissertation is not required to be printed until after the examination of the candidate. Students should, however, at least three weeks prior to their examination, deposit three typewritten copies of the dissertation in the Dean's office for the inspection of the examiners.

The general examination for the degree of Doctor of Philosophy will not be confined to the courses which the candidate has attended in Columbia University or elsewhere, or even to the field covered by such courses. The candidate is expected to show a satisfactory grasp of his subject as a whole and a general acquaintance with the broader field of knowledge of which this subject forms a part.

No student may continue to be a candidate for the degree of Doctor of Philosophy for a longer period than three years from the time he ceases to be in residence, nor for a longer period than six years from the time of his initial registration for a higher degree.

Master of Arts. A student regularly admitted to the University under the Faculties of Political Science, Philosophy, and Pure Science and accepted as a candidate for the degree of Master of Arts will be recommended for the degree after the following requirements have been satisfied:

1. The candidate shall have registered for and attended courses aggregating not less than thirty tuition points, distributed over a period of not less than one academic year or its equivalent.
2. The candidate shall have satisfied the department of his choice that he has completed all the requirements specified by the department for the degree. These requirements may include the completion of courses and the assigned work in them, examinations, an essay, seminars, or other work prescribed by the department.

Students are advised to consult the divisional announcements and the administrative officers of the departments, under whom they are pursuing their studies, concerning the departmental requirements for the degree.

A candidate for the degree of Master of Arts in satisfying the requirement of residence may not offer in excess of fifteen tuition points courses which he also offers for a professional degree or for a certificate given in lieu thereof in any professional school belonging to the University or affiliated with it, nor may he offer undergraduate courses without the consent of the Dean.

Each candidate for the degree of Master of Arts must file a formal application for the degree on a blank provided for the purpose, to be had from the Registrar. If the degree is to be conferred in February, the application must be filed with the Registrar on or before December 1; if in June, on or before March 1; if in October, on or before August 1. The last named date applies to candidates who shall complete the requirements of residence and attendance in the Summer Session then in progress. Diplomas are issued on the last Wednesday in February, on Commencement day, and on the last Wednesday in October, corresponding, respectively, to the foregoing dates of application.

When an essay is required, it shall be submitted to the appropriate department at such times as the department may designate. If the essay is accepted, two typewritten

or legibly written copies, together with a certificate of acceptance by the professor in charge, shall be deposited with the Registrar at least two weeks before the candidate expects to receive his degree. These copies must be written on "Paragon Linen" 11 x 8½ inches in size, 20-pound weight, 4½ wove, a space of 1½ inches on the inner margin being left free from writing. The title-page shall contain the words: "Submitted in partial fulfilment of the requirements for the degree of Master of Arts in the Faculty of—, Columbia University."

An undergraduate who, at the beginning of any Session, is within twelve points of a Bachelor's degree may be permitted, with the approval of the appropriate Deans, to register for graduate courses not in excess of four tuition points with a view to offering them in part fulfilment of the requirement for residence for a second degree; if within eight points, courses not in excess of eight tuition points; if within four, not in excess of twelve. If such student afterwards matriculates as a candidate for the degree of Master of Arts, the graduate courses previously taken by him under this provision will be accepted in part fulfilment of the residence requirement for the degree.

On final certification by the Dean of the appropriate Faculty that all official regulations have been complied with, a candidate shall be recommended to receive the degree of Master of Arts for the satisfactory completion within a period of five years of an approved curriculum.

Master of Laws. Any student who has been graduated from an approved college or scientific school of collegiate rank, or who has successfully completed three years of undergraduate study in an approved college or scientific school, such course of study including satisfactory courses in Economics and in English and American History, and who has also successfully completed three years of study in an approved law school, and who shall thereafter during one year of residence at Columbia University satisfactorily complete a course of study approved by the Dean of the Faculty of Law shall be entitled to be recommended for the degree of Master of Laws.

Doctor of Law (Doctor Juris). The regulations for the award of the doctorate in Law are administered by the Joint Committee on Instruction of the Faculties of Political Science, Philosophy, Pure Science and Law, and candidates for the degree will be recommended for matriculation and examination under the same general regulations as prevail for the degree of Doctor of Philosophy.

The recommending officer, both for matriculation and final examination, will be the Dean of the Law School.

Master's Degree in Education and in Science. Candidates for the degree of Master of Arts in the Department of Education are under the jurisdiction of the Faculty of Education at Teachers College. (See the current *Announcement* of the Faculty.)

The degree of Master of Science is awarded as a graduate professional degree under the Faculty of Applied Science, the Faculty of Practical Arts, the School of Architecture, the School of Library Service and the School of Business. For information with regard to candidacy for this degree, application should be made to the Dean or Director of the Faculty or School concerned.

Delegates to the University Council (see page 7.)

General Statement. In 1883 the Trustees of Columbia College offered degrees to women who should be able to pass the necessary examinations, without, however, providing instruction for them. The resulting system, called the Collegiate Course for Women, proved unsatisfactory to both parties. Barnard College was, therefore, organized in 1889 to provide instruction for women which should be identical with or equivalent to that provided by Columbia for men.

For eleven years it duplicated for women as far as possible the curriculum of Columbia College, and also registered for graduate work under the University Faculties women who held the bachelor's degree from institutions of good standing. Its instructors were members of the University staff. Examinations for entrance, those given in course, and those for degrees, were conducted by Columbia University. During the first three undergraduate years separate instruction was given to women; in the senior year they were admitted to certain courses in the University. Graduate students attended many courses at the University under the Faculties of Philosophy, Political Science, and Pure Science, the laboratory work in science being done at Barnard College.

The numerical growth of Barnard College made inappropriate, however, the informal arrangement for instruction which was the natural method at the outset, and it became necessary to recognize formally the status which had gradually come into existence. An agreement was accordingly entered into in January, 1900, by which Barnard was included in the University system. Barnard is now an independent college for women with a corporation and a faculty of its own vested with all the powers commonly belonging to such bodies. At the same time, it shares the library, the instruction, and the degrees of Columbia University.

A more exact idea of the relations between Barnard College and Columbia University and also of the relations between Barnard College and Teachers College is to be found in the current *Announcement of Barnard College*. This may be obtained without charge upon application to the Secretary of the Committee on Admissions of Barnard College.

Admission. See Undergraduate Entrance Requirements, page 299. More detailed information will be found in the *Announcement of Barnard College*.

Advanced Standing. See "Advanced Standing in Columbia College," page 305.

In addition, the final determination of credits of students admitted by transfer lies with the Committee on Transfers, which reserves the right of readjusting credit at any time.

No applicant may enter the senior class as a candidate for a degree after October 15 in any year, and no student will receive a degree who has resided less than two full Sessions (winter or spring) at Barnard College.

Special Students. Women who wish, without working towards a degree, to make a serious study of some subject or group of subjects, may, with the approval of the Committee on Admissions, enter Barnard as non-matriculants. They need not pass formal entrance examinations, but they must submit satisfactory credentials in regard to character and qualifications for the courses they wish to take.

Candidates for admission as non-matriculants must be at least 18 years of age. They may not pursue merely elementary courses. They must not, within 10 months of the time of application, have been rejected or become deficient as regular students.

They will be held to the observance of the same regulations as to attendance, examination in course, proficiency and deficiency as regular students. They are also subject to the usual health regulations.

They are entitled to a formal statement as to the satisfactory completion of the work that they have taken. They may, in view of a satisfactory record in college courses, be transferred by the Committee on Instruction to the matriculated basis as candidates for a degree.

Matriculation, Registration, Fees. Detailed information regarding matriculation, registration, and fees will be found in the current *Announcement of Barnard College*.

Residence Halls. See page 128.

¹Or, on recommendation of the department, *Philosophy 61-62*.

Degrees with honors in Special Subjects. The Honors Course has been arranged for exceptionally well equipped students with a pronounced interest in some one subject. It offers to these an opportunity to do more intensive and better work than the ordinary students, to have more chance for independent study, and at the same time more individual conferences with the professors in their major department. It gives them also the opportunity of attaining, by successful completion of this course, high academic honor. Entrance into the course is optional with those students who are eligible.

Students who have completed 60 points of work with 75% of grade A and B are eligible as candidates for the Honors Course. The names of students who would be eligible for the course on this basis, providing the quality of work is sustained until the end of their sophomore year, will be posted during the third week in March. Students who wish to apply for the course should do so to the Committee on Honors by April 10. Admission to the course will be subject to the approval of the department in which the student elects to work.

In special cases permission will be given to enter the course in the middle of the junior year, providing similar conditions of eligibility are met.

A student whose name is not on the eligible list may be recommended as a candidate for the Honors Course by any department in which she is doing work of conspicuous excellence and promise. Subject to the approval of the Committee on Honors, such students shall be admitted to the Honors Course.

After a student has been admitted to this course the appropriate department takes charge of her work and, subject to the approval of the Faculty, arranges the curriculum to be pursued for a degree with honors in her special subject. All honor students are required to pass by the end of their junior year the regular foreign language test in French or German or Greek or Latin. They are also required to pass a reading test in another foreign language, to be set by the Department in charge of their work before the new year examination period of their senior year.

At the end of the junior year, if Honors students have not done thoroughly satisfactory work, the Committee on Honors will recommend that they return to the usual course of study.

In the senior year all regular examinations in the major subject are omitted, examinations in other subjects being at the option of the major department, and at the end of the year the student takes a comprehensive examination in her subject. Students who pass the comprehensive examination with high standing are recommended for the degree with honors in their respective subjects. If the examination is passed only moderately well, the student will receive the degree but without honors.

Honor students are exempted from the technical requirement of 120 points, from the usual regulation of class attendance, which in their cases will be under the direction of their major departments, and in their senior year from the customary system of grading. Honors students are not exempted from the supervision of the Department of Physical Education.

Preparation for Professional Schools. Students who intend to transfer to professional schools are of two classes, those who leave Barnard at the end of the sophomore year without candidacy for the Bachelor of Arts degree, and those who at the end of the junior year wish to take advantage of the "combined course," counting the first year of an approved professional school in place of the senior year at Barnard.

Barnard students intending to transfer to professional schools without candidacy for the degree of Bachelor of Arts are required to take *English A*, *English C*, Physical Education throughout their stay at Barnard, and such other courses as are appropriate in preparation for the professional school to which the transfer is to be made.

Students with a good record may, by special permission of the Committee on Instruction, count the first year of an approved professional school in place of the senior

year at Barnard. To be eligible for this "combined course" a student must complete at Barnard, before transferring to the professional school, 90 points of academic work including all prescribed work, 18 points of the major subject, and electives distributed according to certain rules. Students entering as freshmen in September, 1926 must include in their 90 points all grouped work and a major of 28 points unless this number is reduced in individual cases by special permission of the Committee on Instruction.

Students transferring to Barnard from other institutions will be granted this privilege of a "combined course" only if they have an unusually good record and after they have completed a full year of work in Barnard College.

University Courses. Certain courses in the Department of Music and in Teachers College are open to regular students registered in Barnard College. Certain graduate courses in Columbia University under the Faculties of Political Science, Philosophy, Pure Science, and Education, and other courses in the New York School of Social Work are open to specially qualified Barnard seniors.

After two years of collegiate work in Barnard a student may transfer without examination to the School of Architecture as a candidate for the degree of Bachelor of Architecture, to the School of Business as a candidate for the degree of Bachelor of Science, or to the School of Journalism as a candidate for the degree of Bachelor of Literature; after three years (or two in exceptional cases) to the College of Physicians and Surgeons as a candidate for the degree of Doctor of Medicine; after three or four years to the School of Law as a candidate for the degree of Bachelor of Law.

Detailed information in regard to these opportunities will be found in the *Announcements* of Barnard College and the other schools concerned.

General Statement. Teachers College, founded in 1888, and chartered by the regents of the University of the State of New York in 1889, became, in 1898, a part of the educational system of Columbia University. The President of Columbia University is President, *ex officio*, of Teachers College and the College is represented in the University Council by its Dean and representatives elected from its two Faculties. The College, meanwhile, maintains its separate corporate organization, and its Board of Trustees continues to assume entire financial responsibility for its maintenance. In 1912 the Trustees reorganized Teachers College, establishing the School of Education with the Faculty of Education, and the School of Practical Arts with the Faculty of Practical Arts. In addition to these professional schools, Teachers College conducts three schools below college grade—the Horace Mann School, the Horace Mann School for Boys, and the Lincoln School. The Wilton Schools in the rural town of Wilton, Connecticut, were affiliated in 1926.

The central group of the Teachers College buildings occupies the block directly north of the University Campus, bounded by 120th and 121st Streets, Amsterdam Avenue, and Broadway. It includes the main Teachers College Hall, containing offices, lecture and conference rooms—adjoined by Milbank Memorial Hall, providing space for academic and technical instruction and containing the Memorial Chapel; by Macy Hall, with its equipment for fine arts and industrial arts; and by Grace Dodge Hall for work in the field of household arts. Russell Hall, the library and administration building of Teachers College, was completed early in 1924 and adjoins the main Teachers College Hall on the east. Frederick Ferris Thompson Memorial Hall, equipped for physical education, connects Milbank Hall on the west with the main building of the Horace Mann School. Macy Annex, a two-story building on 121st Street between Macy Hall and the Horace Mann School, and Lowell Annex, a two-story building adjoining Russell Hall, afford office and classroom space.

Speyer Hall, situated a short distance north of the College on West 126th Street near Amsterdam Avenue, is occupied by the executive and research offices and the educational clinic of the Institute of Child Welfare Research.

The residence halls are Whittier Hall, for the women students of the College, at the eastern end of the block of College buildings and facing on Amsterdam Avenue; Bancroft Hall, on the north side of 121st Street, opposite Grace Dodge Hall; Seth Low Hall, situated at the corner of 121st Street and Morningside Drive; and two additional apartment buildings, Sarasota Hall and Grant Hall, at 512 and 514 West 122nd Street.

The buildings of the Horace Mann School for Boys, a country day school, are located near Van Cortlandt Park. This group includes the main school building, the principal's residence, a gymnasium, a swimming pool, and grand stand. The Lincoln School, an experimental school of Teachers College which was opened in 1917, occupies a building on 123rd Street, between Amsterdam and Morningside Avenues, which was especially constructed to meet the needs of this school. In 1927 an addition was erected which houses the Institute of School Experimentation, the research activities of the Lincoln School, and other researches in education. A swimming pool for the pupils of the Lincoln School was opened at the same time.

School of Education. The School of Education is a professional school of Columbia University taking academic ranking with the Schools of Law, Medicine, Mines, Engineering and Chemistry. It affords opportunity for the advanced study of educational psychology and sociology, the history and philosophy of education, comparative education, educational administration, the curriculum, vocational and educational guidance, educational personnel, vocational, religious, and rural education, child development, civic education and adult education for the foreign-born, scouting and recreational leadership, and the various aspects of secondary, elementary, and kindergarten education. It also provides professional training, both theoretical and practical, for teachers of both sexes for secondary, grammar, and primary schools, and kindergartens; and offers preparation for advanced students for work as principals, supervisors, and superintendents of schools; as heads of academic or education departments in normal schools and teachers' colleges, and as administrators and heads of education departments in colleges and universities.

Curricula. Since July 1, 1914, the School of Education has been organized on a graduate basis offering graduate curricula for advanced students leading to the Teachers College diplomas in teaching, and to the degrees of Master of Arts and Doctor of Philosophy with a major in education. Teachers College diplomas are awarded to those who demonstrate professional fitness as instructors in education in colleges and universities, as supervisors, principals, and superintendents of schools of all grades, as

heads of academic or education departments in normal schools and teachers' colleges, and as teachers in secondary schools. Courses in education may also be counted in Teachers College towards the Bachelor of Science degree, and as minor subjects towards advanced degrees by students primarily registered in some other part of the University. For detailed information, see the current *Announcement of Teachers College* which may be had from the Secretary of Teachers College.

School of Practical Arts. The School of Practical Arts is a professional school of the University ranking with the Schools of Education, Law, Medicine, Engineering, etc., and devoted to the training of teachers and other workers in such technical fields as household arts (including household arts education), industrial arts education, fine arts (including fine arts education), music education, health education, physical education, nursing education, and practical science.

From its organization in 1912 to June, 1924, the School offered to both men and women a program of study four years in length, equivalent in standards of admission and graduation to the traditional college course in letters and science. Beginning with June 30, 1924, the minimum requirement for matriculation for the Bachelor's degree became two years of approved collegiate study beyond high school. Since July, 1925 the School has been organized on the same basis as the School of Education.

Curricula. The curricula of the School lead to the degree of Bachelor of Science, conferred by Columbia University, and to the Teachers College diplomas for teachers and supervisors of various lines of practical arts; also to the degree of Master of Science for graduate students specializing in the technical phases of practical arts. In coöperation with the Faculty of Education, the Faculty of Practical Arts conducts graduate work in the educational aspects of practical arts leading to the degrees of Master of Arts and Doctor of Philosophy.

For detailed information, see the current *Announcement of Teachers College* which may be had from the Secretary of Teachers College.

The Horace Mann School and the *Horace Mann School for Boys*, maintained by Teachers College, with a complete organization covering the work of the kindergarten, elementary school, and junior and senior high school, offer exceptional advantages for the study of the practical work of teaching and for the investigation of educational problems.

The Lincoln School, established in 1917, is maintained by the General Education Board in coöperation with Teachers College. The school exists for the purpose of conducting modern experiments in education.

The Wilton Schools, eight one-teacher public schools in the rural town of Wilton, Connecticut, were affiliated with Teachers College in 1926, for the purpose of furthering constructive study of the practical problems of teaching and curriculum construction in small country schools.

The Institute of Educational Research was established in 1921 to promote the scientific study of education in coöperation with the several departments of the College and with other institutions interested in investigation and research. It is organized, under an Administrative Board, in two divisions, viz.: (1) Division of Educational Psychology; (2) Division of Field Studies. The Board also administers a special fund for scientific research in practical arts. The staff of the Institute is drawn from available experts wherever they may be found and assignments made for limited periods on specific undertakings.

The International Institute, founded in 1923, has the functions of guidance, instruction and research. It acts as adviser to all students registered in Teachers College who are planning to teach in foreign lands. It gives these students opportunities to visit

American schools, it organizes courses dealing with American education, and to all students it offers instruction in the significant developments of education in all parts of the world. The research activities include foreign travel and study, surveys of education in other lands, the collection of educational materials, journals and books, translation and publication. In limited numbers there are offered tuition scholarships for foreign students and special grants from the Macy Foreign Student Fund for exceptional educators from abroad.

The Institute of Child Welfare Research was established in 1924. Its purpose is the study of child development in its physical, mental, and social phases. It also trains leaders in the fields of child welfare and parental education. At present the study of the preschool phase of development is stressed. The Institute conducts two nursery schools and a psycho-educational clinic. It directs special studies dealing with various aspects of child development in the preschool period.

The Institute of School Experimentation was organized in 1927 to carry on scientific investigation of school practices and procedures.

The School of Architecture of Columbia University is a professional school for men and women. Work in Architecture was begun at Columbia University in 1881. The School of Architecture was established under the Faculty of Applied Science in 1896. In 1906 it was combined with the Department of Music in a Faculty of Fine Arts, and in 1914 was made a separate school under an Administrative Board.

It receives two classes of students: (1) Candidates for the degree of Bachelor of Architecture, who must give evidence of having completed two years of academic study in a recognized college. The curriculum offered to such students is of indeterminate duration but may generally be covered in four years. (2) Candidates for the degree of Master of Science in Architecture. Candidates for this degree must be graduates of this School of Architecture or of a school of architecture maintaining equivalent courses, and are required to spend not less than one academic year upon work assigned by the Administrative Board of the School of Architecture.

Building and Equipment. In 1912 the School of Architecture took possession of its present quarters in Avery Hall, erected in memory of the late Samuel P. Avery, a benefactor of the University, and of his son, the late Henry O. Avery, an architect, to accommodate the Avery Architectural Library and the School of Architecture. Four floors of the building are occupied by the School.

The Avery Architectural Library, consisting of about 25,000 volumes relating to architecture and allied arts, occupies the ground floor of the building, and is open to the public daily (except Sundays and holidays and during a period of six weeks following the Summer Session) from 9 a. m. to 10 p. m. Its material is available for the purposes of study and illustration in the School, whose students are freely admitted to its alcoves without restriction upon the use of books and documents for drawing, tracing, and photographing.

In addition to this the School possesses, in its own departmental library, the Ware Memorial Library, a collection of about 13,000 photographs and several hundred books, a classified library of many thousands of prints and plates, and a large number of original drawings from various sources. The equipment of illustrative material furthermore comprises 10,000 lantern slides of architectural subjects, a collection of casts of architectural details, including a large number from ancient and modern Roman buildings, the gift of the late Charles F. McKim, and several valuable models of buildings and of structural details.

Periodic exhibitions of both student and graduate work are held by the School of Architecture. The current work of students in residence, illustrating progressive accomplishments during four years, is hung in the exhibition room and corridors of Avery Hall.

Important collections of sculpture, painting, engraving, and the minor arts are frequently shown in the Avery Architectural Library.

The Willard collection of architectural casts and models in the Metropolitan Museum of Art is open every day and two evenings in the week, and is very useful for illustrat-

ing the historic styles. Sketching cards granting certain additional privileges in the Museum are issued to students in residence.

The other collections of the Metropolitan Museum of Art and those of the American Museum of Natural History furnish much admirable illustrative material; while the building activity of the city forms a chronicle of architectural progress in design and construction, governmental, domestic, monumental, ecclesiastic, and commercial.

Admission. Except by special action of the Committee on Admissions, regular students under eighteen are not admitted. For regulations governing admission to the course for the Bachelor's degree in Architecture and for the degree of Master of Science in Architecture, see Index.

In general, all courses in the School of Architecture begin in September and run through the year, although the two Sessions are separately rated. It is, therefore, extremely difficult to make adequate arrangements for students who wish to enter in February.

Students desiring to enter with credit for courses pursued in other institutions must make application in writing to the Director of the School of Architecture in time to reach him one month before the beginning of registration (see *Academic Calendar*). The general regulations as to documents to be submitted and as to the acceptance of certificates are the same as for the Schools of Mines, Engineering, and Chemistry.

Fees. For summary of fees, see Index.

Fellowships and Scholarships. For information with regard to fellowships, scholarships and prizes, see Index.

Examinations. Regular examinations in each course are held at the end of each half-year. All other examinations, except examinations for admission to advanced standing, are special examinations, for which the statutory fee of \$3 is charged (see page 123). For the dates of the various examinations see the *Academic Calendar*. Absence from any regular or delinquent examination for which a student is registered is regarded as a failure. A student who fails to attend any mid-year examination will be excluded from the second term in that subject, except for reasons of weight. Those for whom exceptions are made will be required to take the corresponding deficiency examinations during the stated September deficiency examination period.

Students who do not pass or are debarred from a regular mid-year or final examination must remove such deficiency at the September delinquent examinations, failing which they must repeat the course concerned. Students will be debarred from examinations for excessive absence from lectures or failure to complete collateral work. They may for the same reasons be excluded from any course at the middle of any term.

Bachelor of Architecture. 1. Candidates for admission to this course must give evidence of having successfully completed the equivalent of two years of academic studies in a recognized college. Mathematical studies pursued in anticipation of those prescribed in the School of Architecture may be included in such collegiate preparation, and students are advised to carry these studies if possible through the Calculus. The required collegiate preparation must include two years of College French. Candidates must also show a practical knowledge of freehand drawing.

2. In case of studies pursued elsewhere than in a recognized college, and offered by the candidate in lieu of any part of the college preparation, the Administrative Board of the School will determine each equivalent upon its merits.

3. Through the coöperation of the Staff of the School of Architecture and the Committee on Instruction of Columbia College, a program for a combined course of six years has been arranged. Its object is to enable students in Columbia College to begin

the study of architecture early in their college course and to obtain unbroken training in this field until they receive the professional degree. Upon completing the fourth year of this curriculum students receive the degree of Bachelor of Arts and at the end of the whole course, the degree of Bachelor of Architecture. The combined course has decided advantages in soundness of preparation and breadth of culture and it is earnestly commended to young men in preparatory schools who look forward to the study of architecture. Copies of this program may be obtained on application to the Secretary of the University.

Program of Studies. A student receives his degree when he has satisfied the requirements of the courses scheduled below.

Not more than 11 points, exclusive of Elements of Architecture or Design, may be taken in any Session, except by authority of the Committee on Instruction of the School.

In connection with this schedule of required work it should be understood that students credited with advanced standing on the basis of work done in other institutions, as well as others especially qualified, may in any year undertake in part the work of more advanced years subject to the restriction stated above.

General Statement. The College of Pharmacy of the City of New York, founded in 1829, chartered in 1831, and recognized in 1879 by the Regents as part of the University of the State of New York, became a member of the educational system of Columbia University on July 1, 1904. The President of the University is *ex-officio* President of the College of Pharmacy, and the College is represented in the University Council by its Dean, who is appointed by the Trustees of the College of Pharmacy on the nomination of the President, and by one elected member of the Faculty. The College, however, maintains its separate corporate organization, and its Trustees continue to provide for its financial support.

The College is situated at 113-119 West 68th Street, near Broadway, in an especially well-equipped building erected in 1894. A new building, erected in 1923, doubles the teaching facilities of the school.

The College of Pharmacy is thus the professional school of Columbia University for Pharmacists, Pharmaceutical Chemists, Bachelors of Science in Pharmacy and Doctors of Pharmacy, as well as a valuable addition to the University's resources for teaching and research in botany, chemistry, pharmacy, and materia medica.

Admission. (See Pharmacy Announcement).

College Course. The College Course of three years leading to the degree of Graduate in Pharmacy is open only to persons holding the Qualifying Certificate for a Pharmacy Student, granted by the State Education Department on evidence of the completion of a recognized course in a high school.

University Course. The University Course, leading in three years to the degree of Pharmaceutical Chemist, in four years to that of Bachelor of Science in Pharmacy, and in six years to that of Doctor of Pharmacy, is open only to persons who have

completed a four year approved course in a registered high school of New York State, or who have passed the entrance examinations of Columbia University or of the College Entrance Examination Board or who have complied with the new method based on psychological tests.

Program of Study. 1. A College Course consisting of three years, leading to the degree of Graduate in Pharmacy, conferred by the College independent of the University, and qualifying the graduate to meet any examination for the position of licensed pharmacist.

The work undertaken is as follows: First year, botany, posology, general physics, inorganic chemistry, analytical chemistry, pharmacy, practical pharmacy, dispensing pharmacy. Second year: pharmacognosy, inorganic chemistry, analytical chemistry, physics, physiology and hygiene, biology of micro-organisms, practical pharmacy, dispensing pharmacy, commercial pharmacy and pharmaceutical jurisprudence. Third year: materia medica, toxicology, organic chemistry, analytical chemistry, new remedies, manufacturing pharmacy, dispensing pharmacy, merchandizing and pharmacial sundries.

2. A University Course of four years, the first three of which lead to the degree of Pharmaceutical Chemist, conferred by the University, a fourth year leading to that of B.S. in Phar. The work of the first three years of this course differs from that of the College Course in being of a somewhat more advanced character and in occupying five days weekly instead of three and four days. In addition to the studies of the College Course, the University students receive instruction in bacteriology, English, German, Mathematics and American Government. The work of the fourth year includes applied pharmacognosy, botanical taxonomy, human physiology, inorganic quantitative analysis, food analysis and toxicology, biological chemistry, higher pharmacy. Those completing this course are eligible to license as directors of bacteriological and biological laboratories in the City and State of New York. The work of the fifth and sixth years leading to the degree of Doctor of Pharmacy consists essentially of training in research. It comprises 30 hours of work weekly in the department in which the major course is taken and three hours weekly in each of the other two departments. For the present not more than two students can be accommodated in each of the three departments.

3. A Summer Laboratory Course of twelve weeks is provided for those who, for any reason, require training in special subjects.

4. Evening courses of instruction are offered for the benefit of special students, and for those regular students who for any reason may desire the instruction. These courses cannot, at least for the present, take the place of any instruction of the regular course leading to a degree. Certificates will be awarded to those who successfully pursue these evening courses.

Library. The Library of the College of Pharmacy contains approximately 8,000 bound volumes and journals as well as many pamphlets and is open to the general public, as well as to the student body. It is in charge of a trained librarian.

Scholarships and Prizes. For information with regard to scholarships and prizes, see Index.

SCHOOL OF BUSINESS

ADMINISTRATIVE BOARD (See page 11)

General Statement. The School of Business, organized in 1915, offers a complete professional course in business to properly qualified students, both men and women. It is the aim of the course to afford a sound knowledge of fundamental business facts and principles in addition to such practical training in business methods as a school can furnish. The courses are designed especially for the college student who at the close of his sophomore year desires to secure a more thorough and exact knowledge of the principles, organization, and methods of the commercial, industrial, and financial world than is furnished in other departments of the University, and for those persons already engaged in business who desire to obtain deeper insight into the problems of their respective vocations as well as a broader knowledge of allied fields of business activity. A special object, also, is to lay a thorough foundation for the state examination for the certificate of certified public accountant.

Curriculum. The curriculum consists of a two-years' series of courses based upon two years of collegiate study leading to the degree of Bachelor of Science with an additional year leading to the degree of Master of Science, and with further years of study leading to the degree of Doctor of Philosophy.

Students. The following classes of students will be provided for: (1) graduate students, candidates for the degrees of Master of Science and Doctor of Philosophy; (2) students who have spent two years in Columbia College or Barnard College or in some other college of equivalent rank and are candidates for the degree of Bachelor of Science; (3) graduates of high school who have completed in University Extension work equivalent to that offered by Columbia College or Barnard College in the first two years; (4) students who have completed two full years of satisfactory collegiate work in an acceptable college and desire to take courses as special students, not as candidates for a degree; (5) students over twenty-five years of age who are actively engaged in business and who will continue to be so engaged while pursuing their studies in the School of Business, who desire to be admitted as special students to certain courses, provided they are qualified to undertake such courses; they will not be admitted as candidates for a degree; (6) graduates of approved colleges who may enter the School for a year's work in Secretarial Studies leading toward a certificate.

Admission. 1. *To the two-year course leading to the degree of Bachelor of Science.* Students must have completed two years in Columbia or Barnard College or an equivalent course in some other institution of similar standing. During these two years of collegiate study, the student should complete courses aggregating 60¹ points if taken in Columbia College or Barnard College, or two full years of work in another acceptable college, including two years of English, two years of French or German or Spanish, or their equivalent, and one year of economics. If a student's preparation in any of these subjects required for admission is found to be deficient, he must remove such deficiency by further study of these subjects.

It is recommended that economic geography and elements of business administration be included in these two years of collegiate work. If they are not offered at the time of admission they will be included in the program of study while in the School.

¹Exclusive of Physical Education.

2. *To the one-year course leading to the degree of Master of Science.* Students must have completed a four-year course leading to a Bachelor's degree in an acceptable college or university. In the apportioning of subjects of study in this four-year undergraduate course, at least one-half of such subjects (reckoned on a point basis) should have been academic, and at least one-fourth equivalent to those subjects offered in the School of Business for the degree of Bachelor of Science, including particularly the first year foundation courses. Students offering this preparation may receive the degree of Master of Science in one year.

3. *To the two-year course leading to the degree of Master of Science.* Students must hold a degree from an acceptable college or university indicating the completion of a full collegiate course such as is generally required for the degree of Bachelor of Arts.

4. *To the course leading to the degree of Doctor of Philosophy.*

See requirements as listed under Faculties of Political Science, Philosophy and Pure Science.

5. *Special students.* Students who have completed two full years of satisfactory collegiate work in an acceptable college may be admitted to courses of study as special students. The work of such students must be carried on in accordance with the same course standards as apply in the case of regular students.

6. *Non-matriculated students.* Students who are over twenty-five years of age and who are and continue to be actively engaged in business may be admitted to certain courses as special students, but such students cannot register as candidates for the degree of Bachelor of Science. They may not take more than one or two courses in any session.

7. *Candidates for the certificate.* Graduates of approved colleges may enter the School of Business for a year of secretarial study.

PROGRAM OF STUDIES

First Year. The first year of the School of Business corresponds to the third year of the college course and is, therefore, open to students who have covered two years of collegiate subjects.

The following courses are required of candidates for the degree of Bachelor of Science and should be taken in the first year:

First year accounting

Banking and business

Corporation finance

Business law (may be deferred until second year)

Statistics (a one-session course)

Elements of business administration and economic geography (must be taken by those students who do not present these subjects for admission)

Second Year. Business economics will be required in the second year of all candidates for the Bachelor's degree. Aside from this requirement students of the second year of the School of Business, except in the case of secretarial students, are permitted to elect their entire program, subject to the approval of the Director. They should have gained a satisfactory working knowledge of accounting before completing the second year of the School. Those who wish a general course in business will be advised in the selection of a proper grouping of courses. On the other hand, those who desire to specialize in some part of the field are afforded an opportunity to do so.

Students in secretarial studies are required to take a course in secretarial correspondence. In addition they must satisfy the Administrative Board that they have a mastery of stenography and typewriting, for which a maximum of 8 points of aca-

demic credit will be allowed. This requirement in stenography and typewriting will ordinarily involve the taking of the following courses: *Stenography 31-32* and *Typewriting 31-32*. An examination in elementary English will be required of all secretarial students at the beginning of the year. This examination will be held for students entering in September, the first Monday after the final date for registration for credit. For students entering in February the examination will be held on a corresponding date, i. e., the first Monday after the final date for registration for credit. If students prove to be deficient in this subject, they will be required to take the examination at the next stated examination period.

REQUIRED LECTURE COURSE

A course of lectures by prominent business executives will be given during the academic year 1928-1929. One hour per month will be set aside for this purpose and all regularly enrolled students in the School will be required to attend.

Graduate Years. In connection with the work of the graduate year or years, advantage will be taken of the peculiar opportunities due to the location of the School in the City of New York. Every effort will be made to bring properly qualified students into close contact with modern business problems and with best business practice as developed in the large enterprises located in the city. Except for reasons of weight, only the courses numbered above 100 may be taken for credit toward the Master's degree. Graduate instruction will emphasize research problems. Each student will be expected to work out, under direction of a member of the staff, some independent investigation which will have an important bearing not merely on his own knowledge of business administration and its relation to the economic life of the community, but will also contribute in some degree to the sum of knowledge of business activity and to the improving of business processes. It is a prime purpose of the School to stress this phase of its work.

PREPARATION FOR TEACHING

Students in the School of Business who are interested in preparing to teach commercial subjects in secondary and special schools should consult Professor MCCREA regarding the program of studies.

The program for such students will include courses in Business, general courses in the fields of Economics, History, and Sociology, and courses in Education elected from the offering of the School of Education, Teachers College, under the guidance of Professor KITSON.

In order to be eligible for teaching credentials of Boards of Education such students should elect a minimum of 12 points in Education, including:

History and Principles of Education	4-6 points
Educational Psychology	4-6 points
General and special methods of high school teaching	4-6 points

In addition to these general courses, a number of special courses in Education will be of significance, including:

Education 168F—*The teaching of modern business arithmetic in the grammar grades and in the junior high school.* 2 points Spring Session. Professor UPTON.

Education 241E—*Vocational education. Introductory theory.* 2 points Winter Session. Professor SNEDDEN.

Education 221E—*Vocational testing.* 2 points Winter Session. Professors RUGER and SPENCE.

Education 235M2—236M2—High school supervision. 6 points each Session. Professor JOHNSON and representatives of the subject-matter fields.

Education 208K—The experimental psychology of habit, skill, practice, and memory. 2 points Spring Session. Professor RUGER.

Certificate in Secretarial Studies for College Graduates. Graduates of approved colleges who have been accepted as candidates for a certificate are required to take, during the year, the following courses, *Stenography 31-32* and *Typewriting 31-32*, for which academic credit of 8 points will be granted, and electives from the School of Business or University Extension amounting to 18 points. See *Announcement of Secretarial Studies*.

Degrees. Students who complete the undergraduate work of the School of Business are eligible for the degree of Bachelor of Science. Those who complete the requisite graduate work are eligible for the degree of Master of Science. Students desiring to become candidates for the degree of Doctor of Philosophy may also register in the School of Business, pursuing their work under the direction of the Dean of the Graduate Faculties.

The regulations covering the various degrees are as follows:

Bachelor of Science. The work required for this degree consists of two years of college courses and a program of 60 points in the School of Business, each point representing the satisfactory completion of work requiring one hour a week for the Winter and Spring Sessions. The satisfying of the requirement in the School of Business will ordinarily involve a two-year program of study, and is met by completing the prescribed courses indicated on page 355 and electives to make a total of 60 points.

Every candidate for the degree of Bachelor of Science in the School of Business is required to complete a minimum of 36 points in regular School of Business courses. Students must have at least a year of residence in the School of Business to become candidates for the degree. In satisfaction of the residence requirement a minimum of 12 points each term must be completed in regular School of Business courses. No candidate for the degree may take less than twelve nor more than nineteen points during either the Winter or the Spring Sessions. The maximum credit allowed toward the degree for work taken in any one Summer Session is eight points, provided that no more than six points be credited to any student who received a mark below C in any course of the previous Session in the School.

Master of Science. The work required in satisfaction of the requirement for the Master of Science degree is as follows:

1. Students admitted as candidates for the M.S. degree in one year as indicated on page 355, must register for and attend graduate courses aggregating not less than thirty tuition points distributed over a period of not less than one academic year or its equivalent, and approved as the residence requirement for the degree by the Director or other designated officer.

2. Students admitted as candidates for the M.S. degree in two years as indicated on page 355, must take in the first year fundamental courses in the fields of economics, corporation finance and banking, marketing, accounting, statistics and such other subjects as the Director or other designated officer may consider desirable, followed by a second year of work in graduate courses such as are required for the one-year candidates.

The following general requirements apply to all candidates:

1. The candidate must satisfy a comprehensive examination on the subjects of his graduate study, to be prepared by a committee of the teaching staff.

2. The candidate must prepare a satisfactory essay under the direction of a designated officer of the teaching staff, the subject to be approved at the beginning of the candidate's residence. The essay shall present the results of original investigation.

3. The essay, when completed, must be submitted to a committee of three, designated in each case from the staff of the School at least two weeks prior to the date of final deposit of the essay with the Registrar. If the essay is accepted, two typewritten copies together with a certificate of acceptance by the committee in charge shall be deposited with the Registrar on or before dates indicated in the *Academic Calendar*. These copies must be written on Paragon Linen, 11 x 8½ inches in size, 20-pound weight, 4½ wove, a space of 1¼ inches on the inner margin being left free from writing. The title-page shall contain the words: "Submitted in partial fulfillment of the requirements for the degree of Master of Science in the School of Business, Columbia University."

4. An undergraduate of the School of Business who, at the beginning of any Session, is within twelve points of a Bachelor's degree may be permitted, with the approval of the Director, to register for graduate courses not in excess of four tuition points with a view to offering them in partial fulfillment of the requirements for residence for a second degree; if within eight points, courses not in excess of eight tuition points; if within four, not in excess of twelve. If such student afterwards matriculates as a candidate for the degree of Master of Science, the graduate courses previously taken by him under this provision will be accepted in part fulfillment of the residence requirement for the degree.

5. Although the residence requirement and the essay shall have been completed satisfactorily, the degree will not be granted during the same academic year in which the Bachelor's degree is granted.

The candidate must satisfy the Administrative Board that he has completed all the requirements specified by it for the degree. The purpose of this graduate course is to enable the student to pursue his professional study beyond the two years required for the Bachelor's degree; to secure an opportunity to elect courses under the Faculty of Political Science; and to carry on special work in research in applied economics. Courses offered by the Faculties of Law, Political Science, and Engineering are open to the candidates for the degree under restrictions determined by those Faculties and by the Administrative Board of the School of Business.

*Doctor of Philosophy.*¹ By action of the University Council, students registered primarily in the School of Business may become candidates for the degree of Doctor of Philosophy under the general regulations for that degree which apply in the Faculties of Political Science, Philosophy and Pure Science, subject to the approval of the Joint Committee on Graduate Instruction.

Candidacy for Degrees. Students intending to apply for degrees must, on or before the dates indicated in the *Academic Calendar*, pay the required fee and file with the Registrar the application for graduation.

Advanced Standing. Students who apply for admission to advanced standing upon the basis of certificates of transfer from other colleges, should fill out the appropriate

application blank, to be obtained from the Secretary of the University, and file it with the University Committee on Admissions before August 1 or January 1. Each candidate (whether he has a degree or not) must also present an official transcript of his academic record and a certificate of honorable dismissal together with a marked catalogue of the institution that he leaves, showing the courses he has there pursued, with grades received in each. In no case will the number of advanced credits granted toward the undergraduate degree in business subjects exceed 24 points.

Scholarships. A number of scholarships affording financial assistance to needy students are available in the School of Business. All scholarships are intended to be academic honors, and no student may hold more than one scholarship. Unless otherwise indicated, application for award for each year of incumbency must be made on or before May 1, on blanks furnished by the Secretary of the University. Failure to maintain a grade of at least C in all courses taken, or serious academic censure for any cause, will operate to vacate the scholarship before the beginning of the next Session. Vacancies may be filled and partial scholarship grants made at the discretion of the Committee.

SCHOOL OF DENTAL AND ORAL SURGERY

FACULTY

President BUTLER.

Dean OWRE.

Associate Dean WAUGH.

Professors BERGER, BODECKER, CLARKE (H. T.), DARRACH, DETWILER, DUNNING (H. A.), DUNNING (W. B.), GAY, GILLET, HARTMAN, HUGHES, JOBLING, LEONARD, LIEB, ROWE, TRACY, WILLIAMS (H. B.).

Delegates to the University Council (See page 7).

General Statement. In September, 1916, students in dentistry were admitted to courses in Columbia University at the School of Medicine. On March, 5, 1917, the Trustees of the University established a School of Dentistry as of September 27, 1916, and from that date the school became an integral part of the University. On March 1, 1920, the dental building adjacent to the School of Medicine and Vanderbilt Clinic was finished and assigned to the use of this school. On July 1, 1923, the College of Dental and Oral Surgery of New York (organized in 1905) was merged with the School of Dentistry and the combined institutions named the School of Dental and Oral Surgery of Columbia University. By this merger the buildings of the College of Dental and Oral Surgery of New York at 302 East 35th Street were acquired by the University and served to house the school until September, 1928, when the school was again moved to its permanent quarters in the Columbia University-Presbyterian Hospital Medical Center at 630 West 168th Street.

In its new location, the school occupies three floors of the Vanderbilt Clinic wing of the Medical Center and its halls are continuous with those of the College of Physicians and Surgeons and the Presbyterian Hospital. It has been newly furnished with modern dental apparatus and is well equipped for undergraduate teaching in dentistry and oral hygiene, for advanced courses to dentists and for research work. The clinic of the school serves as the dental department of the Medical Center. Much of the diagnosis and treatment in the clinic is done by teaching demonstrators which assures a large continuous demonstration clinic in dentistry. There is the closest possible connection between the dental department and clinic and the medical departments and clinics of the College of Physicians and Surgeons and the Medical Center in the interest of good teaching, research and service to the patients.

It is the purpose of the School of Dental and Oral Surgery to combine in the highest degree practicable a sound knowledge of the fundamentals of medicine with adequate training in the technical procedures of dental science and art. Two years of college work, including certain specified subjects, are required for admission and the course in dentistry covers four years.

On the completion of his fourth year the student who has had two years of collegiate training may be a candidate for the degree of Doctor of Dental Surgery. Students in Columbia College who elect the combined courses (see p. 361) will receive the degree of Bachelor of Arts.

The students of the School enjoy all the privileges open to members of any other department of the University. They may live in the University residence halls at Morningside Heights and are eligible to membership in the various social and other organizations of the student body.

Application. Students should apply in the spring, if possible, and may use Summer Session courses at Columbia University or elsewhere to make up deficiencies. All

communications should be addressed to School of Dental and Oral Surgery, 630 West 168th Street, New York City. All applications should be accompanied by the sum of one dollar, to defray the cost of the dental student's certificate, as required by the laws of the State.

Admission. The requirements for admission to the School of Dentistry include the following subjects, to be taken in college: one year of physics, one year of biology, one year of inorganic chemistry based on college entrance chemistry, one-half year of qualitative analysis, one-half year of organic chemistry, two years of college English, and one year of either French or German.

The courses in physics, chemistry, and biology which are required for admission are represented by the following courses in Columbia College:

1. Elementary physics, including laboratory work, *Physics A1-A2*. At least three lectures and two hours' laboratory work a week for one year.
2. General inorganic chemistry, including laboratory work, *Chemistry 3-4* or *6-7*, organic chemistry, and qualitative analysis—at least two lectures and six hours' laboratory work a week for one year.
3. Biology, including laboratory work, *Zoology 1-2*. At least two lectures and four hours' laboratory work a week for one year.

Upon receiving 72 points in Columbia College, which is usually possible in two years, a student may take studies in the School of Dentistry provided he can satisfy the stated requirements for admission thereto and may receive the D.D.S. degree on the recommendation of that School upon the satisfactory completion of four years of professional study. Students who take their preliminary education in other colleges than Columbia must also elect as part of their course, physics, inorganic chemistry, organic chemistry, qualitative analysis and general biology.

Combined Courses. Attention of students who propose to enter the School of Dentistry is called to the program of studies in Columbia College which offers an opportunity to the prospective dental student to take both a collegiate and dental degree in seven years.

Upon receiving 94 points from Columbia College, 64 of which must be for work done in residence, and must include all of the work prescribed for the degree of A.B., a student may in his fourth year take studies in the School of Dentistry and receive the degree of Bachelor of Arts from Columbia College upon the satisfactory completion of the year's work. At the end of three additional years in the School of Dentistry the degree of D.D.S. may be conferred.

Students desiring to effect this combination of courses should address the Secretary of Columbia University for more complete information.

Requirements for Graduation. In addition to complying with the requirements for admission and to completing the required work of the curriculum, each candidate for the degree of D.D.S. must present satisfactory evidence, as required by law, of good moral character, and of having attained the age of twenty-one years. If the candidate shall have been admitted to advanced standing, he must have spent not less than four academic years (no two of which shall have begun during the same calendar year) in approved medical or dental colleges, in the study of the subjects making up the curriculum of the School of Dentistry.

Courses in Oral Hygiene, offered by the School of Dental and Oral Surgery are intended for women who desire to become licensed dental hygienists. The requirements for admission are the qualifying certificate obtained from the Department of Education of the State of New York at Albany, New York, the completion of at least four years of high school work, and the attainment of at least nineteen years of age. Full information may be obtained by addressing Professor Anna V. Hughes, at 630 West One Hundred Sixty-eighth Street, New York.

SCHOOL OF LIBRARY SERVICE

ADMINISTRATIVE BOARD (See page 12)

General Statement. The School of Library Service, established in 1926, includes the New York State Library School and the Library School of the New York Public Library which were merged with it at that time. An annual grant was made by the Carnegie Corporation of New York for the support of the School.

The purpose of the School is to "furnish technical and professional instruction in bibliography, the production, distribution and use of books, library methods, and the organization and administration of libraries and book collections of various types."

Building and Equipment. Pending the erection of permanent quarters, the School occupies the whole of East Hall, which is situated in close proximity to the University Library. The records, collections, and teaching equipment of the New York State Library School and the Library School of the New York Public Library were transferred to the School of Library Service.

Requirements for Admission. 1. Candidates for the Degree of Bachelor of Science must have a Bachelor's degree from an approved college or university. In addition they must be (a) at least twenty years of age at entrance and not over thirty-five unless they have been continuously engaged in library work or some similar intellectual pursuit; and (b) able to show evidence of fitness for library work.

2. Candidates for the Degree of Master of Science must offer (a) a Bachelor's degree from an approved college or university; (b) the successful completion of a one-year course in an accredited library school; (c) at least one year's professional experience in an approved library; and (d) evidence of fitness to pursue advanced graduate work.

3. Candidates for the Certificate must offer a minimum of one year of college study acceptable for admission to the sophomore class of an approved college or university evidenced by a transcript of the college record. They must satisfy the Director of the School that they possess the requisite personal qualifications for library work. Reasonable facility in typewriting is also required.

Admission to Advanced Standing. Candidates for a degree or for the certificate who have already completed satisfactorily in an accredited library school courses equivalent to those prescribed in the School of Library Service, will be given provisional credit for such courses and permitted, with the approval of the Director, to substitute therefor other courses offered in the School, in one of the other professional schools, or in one of the graduate faculties. Candidates who have had courses which may be considered as equivalent of those given in the School, but for which credit cannot be given, may be permitted by the Director to take an advanced standing examination to be given during the week preceding the opening of the academic year.

Since a candidate for any degree is required to complete in residence not less than thirty tuition points distributed over a period of not less than one academic year, admission to advanced standing does not operate to reduce the number of points or shorten the period of residence required for the degree.

Admission at Mid-Year. Candidates for the degree of Bachelor of Science will not be permitted to enter at the beginning of the Spring Session unless they present satisfactory evidence that they have had courses equivalent to those prescribed for the Winter Session. Candidates for the degree of Master of Science will not be allowed

to register in the Spring Session for any major course, or other course extending throughout the year, unless they have had the first half as given in the Winter Session.

Application for Admission. Every applicant for admission to courses leading to a degree or to a certificate must file with the Director of Admissions (a) an application on a blank to be furnished by the Secretary of the University; and (b) an official transcript of the detailed college record. Applications received after August 1 may fail to receive consideration.

College Course Preparatory to Library Service. The best preparation for Library Service includes a rather wide range of subjects, and no part of the college course is to be considered pre-vocational in the narrower sense. Foreign languages, literature, history, economics, sociology, psychology, and the natural sciences are important. A good reading knowledge of French and German is essential. Other modern languages are useful, and some knowledge of Latin is highly desirable. For service in specialized libraries (such as law and engineering) a student should have a thorough preliminary training in the subjects involved.

Registration, Fees, Loan Funds. For information on these subjects consult the Index.

Scholarships. Three scholarships of the value of \$300 each are offered by the New York State Library School Association to candidates for the Master's degree who have taken the first year's work in the New York State Library School at Albany.

A student in the School of Library Service is eligible for appointment to a Lydia C. Roberts' Fellowship if born in the state of Iowa and graduated from a college or university located in Iowa. For particulars about this fellowship the Index should be consulted.

Curriculum. The curriculum consists of two years of graduate study, the first year leading to the degree of Bachelor of Science, and the second to the degree of Master of Science. A one-year course of study leading to a Certificate is open to undergraduates, normal school graduates, and other qualified persons.

1. *Bachelor of Science.* The first year, leading to the B.S. degree, offers general training in library methods and technique, and such acquaintance with bibliographical works, methods of research, and the organization and administration of libraries, as will fit the student for service in public, college or university, and special libraries.

The Program of Study is as follows:

2. *Master of Science.* The second year, leading to the M.S. degree, affords an opportunity for specialization in the more important fields of library service. Each student selects one field in which to specialize, the field chosen bearing some obvious relation to his previous training and experience. For this purpose seven types of library service are recognized: (1) Bibliography and reference; (2) cataloguing and classification; (3) public library administration; (4) college and university library administration; (5) school libraries; and (6) library work with children. In addition to his major course, each student is required to include in his program the *Seminar for candidates for the degree of Master of Science*, and to present an essay acceptable to the professor in charge of his major subject and to the Director of the School. The rest of his program of fifteen points each Session may be made up of courses offered in the School or, up to a total of seven points each Session, from the other graduate offerings in any department of the University. For the complete program of studies for the second year the special *Announcement of the School of Library Service* should be consulted.

3. *Certificate.* The one-year course leading to a Certificate through University Extension and Summer Session is planned to meet the needs of persons actively engaged in library work and unable to leave their posts for a year of full-time study as well as for those who do not have an acceptable college degree and therefore cannot qualify for admission to the graduate course. This course aims to give a professional training equivalent in general to that afforded by the library schools accredited by the American Library Association's Board of Education for Librarianship as Junior Undergraduate Library Schools.

Summer Session. The School of Library Service offers through Summer Session graduate courses leading to the B.S. and M.S. degrees, undergraduate courses leading to the Certificate, and special courses for school librarians, librarians of small public libraries, and book salesmen.

University Extension. A regular library school course leading to a Certificate is offered through University Extension in classes held in the late afternoon, evening, and on Saturday morning.

Degrees. The regulations governing the granting of degrees and the Certificates are as follows:

1. *Bachelor of Science.* For this degree the satisfactory completion of courses aggregating thirty tuition points, distributed over a period of not less than one academic year or its equivalent, will be required.

2. *Master of Science.* For this degree the satisfactory completion of courses aggregating thirty tuition points, distributed over a period of not less than one academic year or its equivalent, and the presentation of an essay acceptable to the professor in charge of the major subject and to the Director of the School, will be required. In addition, each candidate must also pass (a) the regular course examinations; (b) an oral examination to test his acquaintance with the general field of professional library work; and (c) a comprehensive written examination covering the field in which he has specialized.

3. *Certificate.* For the Certificate, the satisfactory completion of thirty tuition points in University Extension and the Summer Session will be required. In addition to course examinations each candidate must pass a comprehensive written examination covering the entire field included within the scope of the course, and must present evidence that he has had satisfactory experience in an approved library equal in value to the field work and observation prescribed by the American Library Association for the certificate of Junior and Senior Undergraduate Library Schools.

Other degrees. For the degrees of Master of Arts and Doctor of Philosophy students in the School of Library Service must conform to the general regulations for those degrees. (See Index.)

For full information concerning the School see the special *Announcement of the School of Library Service*. Special *Announcements* for the Summer Session courses and University Extension courses are also available.

General regulations governing students in University Extension and Summer Session are to be found in the separate *Announcements* of these two departments.

All *Announcements* may be secured by application to the Secretary of the University.

GENERAL STATEMENT

This college was founded in 1860 and has functioned continuously as an undergraduate college of Arts, Letters and Sciences. In July, 1928, it was admitted into the educational system of Columbia University as one of the undergraduate colleges thereof, with equivalency to Columbia College for men and Barnard College for women.

St. Stephen's College is limited to 250 male undergraduates. It accepts and retains only those who, in the opinion of its faculty, show exceptional intellectual ability and are really in earnest. It makes its chief aim achievement for a picked honors group in the Junior and Senior years. It uses as little as possible lecture methods of instruction. Its honors study system, described below, should be noted. It stresses extra-classroom contacts of teachers and students. Social life, athletics, fraternity affiliations, etc.,—what are commonly known as student life and activities—while approved and cultivated, are definitely subordinated to the pursuit of hard intellectual labor. Every attempt is made to see that students are not merely instructed in facts but also taught how to approach the problems of life and thought rationally and without fear, to think them through independently, clearly, and imaginatively, and to correlate them into something approaching a philosophy. The faculty believes that second-hand knowledge is of little value to anyone; that the student must do his own investigation and thinking, under advice from the staff, and not have it done for him by instructors. The entire college, instructors and students, live on the campus, in an environment comparatively apart from distractions but sufficiently near to New York to prevent undue isolation. No student is retained in the College after two years unless he has shown both promise and desire. In the latter half of the course great pains is taken to develop in the students as individuals every creative or critical faculty that they possess, with as little of conventional restraint as possible.

The College believes that the human experiment which men call religion has been, and is, as important for balanced thinking as scientific investigation or logical processes. Careful instruction is given objectively about the facts, beliefs and devotional practices of the Western world, and particularly those of Judaism, Catholicism, Protestantism, and Neo-Protestantism. Every effort is made to prevent the isolation of the students either in an atmosphere of secularism or in one phase of religion narrowly conceived. An intrinsic relationship between religion and learning is assumed in all the instruction.

Reverence toward the mysteries of life, death, and God, and charity toward all religions, is characteristic of every instructor. Evening Chapel and Sunday morning Chapel are by requirement to be attended. The College is under the control of a Board of Trustees a majority of whom are communicants of the Episcopal Church, and the Chapel services are those of that body. There is no narrowly sectarian atmosphere and men of any religious faith will find their various beliefs fully appreciated and their comfort safeguarded. As a Christian college St. Stephen's aims to produce men who will go forth from its halls with a respect for all religions, a large love for humanity and a real desire to serve, coupled with an intelligent knowledge of the religious experience of the human race.

Annandale-on-Hudson, where the College is located, is a country village. The campus is on the top of the hills to the East of the Hudson River, ninety miles north of New York City, overlooking the valley and the Catskill Mountains. The railroad station is Barrytown.

Because of the intimacy of the college living, it is possible for the authorities to make the individual acquaintance of every man and to feel for him a real interest. The Warden and the Registrar will be glad to hear personally from prospective students or from those interested in them.

ADMISSION

In general, the admission requirements are similar to those of the other undergraduate colleges of the University. Applications for entrance should, however, be sent to the Registrar of the College at Annandale-on-Hudson. The faculty sets its own entrance requirements, which are administered under the general direction of the Director of Admissions of the University. In satisfaction of its requirements, the College will accept the certificate of the College Entrance Examination Board, or college entrance certificates of the Regents of the University of the State of New York. Certificates from secondary schools may be accepted, if the schools are recognized as of good standing. A test of general intelligence and mental alertness is also applied to candidates. Placement tests are given to entering students in mathematics, English, and the foreign languages; and the College reserves the right, if these tests show a student lacking in excellent preparation in any subject for which certificates have been accepted for entrance, to require such additional work as may be deemed advisable, without college credit.

Fifteen college entrance units must be offered, of which three shall be in English, two in a foreign language, and two and a half in mathematics. The rest must be in the following subjects: Latin, Greek, French, German, Spanish, Mathematics, History, Physics, Chemistry, Biology, Zoölogy, Botany, Physical Geography, Civil Government, Economics.

Further particulars about entrance may be ascertained from the *Catalogue of St. Stephen's College*.

ADVANCED STANDING

Students from colleges of similar grade will be admitted, without examinations, to such classes as their previous records warrant. A student transferring must pass, in the first year of his residence, not less than four courses of three hours each during each semester, with a grade of C or higher in three of them, in order to be retained in the College. Students desiring to be admitted by transfer must submit a certificate of honorable dismissal from the institution which they have been attending.

LATE ENTRANCE

No student may be admitted for the first semester after the first day of October or for the second semester after the 15th day of February.

FEES

The fees at St. Stephen's College are as follows: for tuition, \$150 per semester; for a room (including furniture, light, heat and care), \$75 a semester; for board in hall, \$125 per semester; health fee, \$10 per semester; laboratory fees, \$10 per semester each course; gymnasium fee, \$3.00 per semester. It should be noted that all students are required to live on the campus and to board in hall.

REQUIREMENTS FOR THE DEGREE

Students, except those reading for honors (see below), must complete 126 semester hours of college work, as follows:

1. *English*: 6 hours of composition in the freshman year and 6 hours survey of English Literature in the sophomore year.
2. *Ancient Languages*: 6 hours of college Latin, provided 4 years of Latin is offered for entrance, or 6 hours of Greek, provided 3 units of Greek have been offered for entrance. In case the requisite amount has not been offered for entrance, it must be taken in the college, with college credit, before the required work may be taken.
3. *Modern Language*: 6 hours of French or German, provided two years of French or German has been offered for entrance; otherwise, the equivalent of such entrance French or German, plus the extra year's work in the college. Spanish will be accepted for entrance, but neither Spanish nor Italian will be accepted toward fulfilling the graduation requirement.
4. *Mathematics*: 6 hours, to be taken in the freshman year, unless the student has offered for entrance College Algebra and Trigonometry.
5. *Physical and Biological Sciences*: 8 hours in Physics or Chemistry and 8 hours in Biology.
6. *Philosophy and Psychology*: at least a three hour course in Philosophy and a three hour course in Psychology.
7. *History*: at least 6 units.
8. *Social Sciences*: an elementary three hour course in Economics and an elementary three hour course in Sociology.
9. *Public Speaking*: four one hour courses.
10. *Religion*: a survey course, taught objectively, in the content of religious belief, to be taken in the freshman year, 2 hours.
11. *Majors and Minors*: In the last two years the student must take in one department at least 18 semester hours beyond the beginning course and in another department at least 12 semester hours beyond the beginning course.
12. *Electives*: aside from the above requirements courses may be elected as the student may decide, after counsel with his faculty adviser, and with the consent of the faculty.

The above requirements are for the most part confined to the first two years and are intended to introduce the student to various phases of modern knowledge. Collectively they take the place of the survey course in contemporary civilization which is given in the first two years in Columbia College.

THE HONORS STUDY SYSTEM

The Honors Study System is urged for all students whose ability is to any degree exceptional. A student who maintains during his first two years an average grade of 75% or over is permitted to study under this system in his last two years of residence.

Such a student is required to take only 18 hours of class work during these last two years, instead of a normal 60 hours. Aside from this formal requirement, his time is entirely free for private reading under tutorial direction. His field of study is determined by himself and his tutor. It is expected that it shall cover a general knowledge of a chosen field and a special knowledge of some portion of that field. There are no semester examinations or course credits given in honors work. At the end of the Senior year the student is examined by all the members of the department in which he has been reading, together with at least one scholar of repute from the faculty of some other college. This visitor sets the examinations, which include three written examinations and an oral examination. In short, the methods of teaching in honors study are a combination of the Oxford-Cambridge tutorial system and the methods used in the better graduate schools. The student is enabled to go as far and as fast as his capabilities and desire dictate. It is frequently possible for such a student to cover all of the ground usually expected for a Master's degree, except the thesis. The degree given is the Bachelor's degree with distinction.

PRE-PROFESSIONAL STUDY

The fluidity of the curriculum at the College, especially with men who read for honors, makes possible highly effective undergraduate preparation for the graduate schools or for the professional schools in medicine, law, journalism, business administration, theology, etc. No attempt is made to prepare students for such graduate or professional work in less than four years.

FURTHER INFORMATION

The Warden of St. Stephen's College will be glad to correspond with students desiring further information. He should be addressed at Annandale-on-Hudson, N. Y.

SETH LOW JUNIOR COLLEGE

Seth Low Junior College was founded on March 5, 1928, in order that the extension courses offered at the Long Island College Hospital and the Brooklyn Law School might be consolidated to provide a more effective educational institution for Brooklyn. The administration of the College is under the direction of an administrative board.

Admission. The requirements for admission are the same as for Columbia College. All correspondence pertaining to admissions is handled by the administrative office of Seth Low Junior College.

Location and Facilities. Seth Low Junior College is housed in the fifth and sixth floors of the Brooklyn Law School Building, 375 Pearl Street, Brooklyn, New York. This is two blocks from Borough Hall. The space occupied by the Junior College consists of a spacious library, zoölogical laboratory, accounting and statistics rooms, administrative offices, instructors' consultation rooms, eleven classrooms and a large lecture room. The College possesses in its own library some 2200 volumes. The zoölogical laboratory is fully equipped to provide for the elementary and advanced courses needed by the college student who is preparing himself for medicine.

Professional Options. Students may obtain the first two years of a program of liberal arts required for admission to courses in optometry and professional schools of business, dentistry, journalism, law, library service, medicine, mines, engineering and chemistry.

Advanced Standing. See advanced standing in Columbia College, page 305.

The first two years of study for the Bachelor of Science degree will be offered in Seth Low Junior College. The remaining two years of study will be offered at Morningside Heights.

In general, the best preparation for library service includes a rather wide range of subjects. No part of the college course is to be considered pre-vocational in the narrower sense. UNION THEOLOGICAL SEMINARY

The relation between Columbia University and Union Theological Seminary is educational and not fiscal. Each Institution has its own Board of Trustees and its own President. The President and two elected representatives of the Seminary Faculty have seats on the University Council and certain members of the Faculty of the Seminary sit upon the Faculties of Political Science and Philosophy.

Students from Union Theological Seminary, which requires for entrance graduation from a recognized college, are permitted to take work in the Graduate Faculties of the University and pay their fees to Columbia University, and students in the Graduate and Professional Faculties of the University are admitted to courses in Union Theological Seminary and pay their fees to Union Theological Seminary. Undergraduates in Columbia College who have completed three years of work in a pre-theological program of studies may take the fourth year in Union Theological Seminary and on the successful completion of the work of that year they may receive the A.B. degree from Columbia College.

Union Theological Seminary does not grant the A.M. degree but recommends to the Council and Trustees of Columbia University students to receive the A.M. degree in the Literature and Religion of the Bible, and the Comparative Study of Christianity and other Religions. All the work leading to these degrees may be taken at Union Theological Seminary.

The Seminary joins with Teachers College in recommending to the Trustees of Columbia University students to receive the degree of A.M. in religious education. Toward the one year's residence, defined as thirty points, required for this degree eighteen points must be taken in Teachers College, and twelve points may be in courses at the Seminary. These twelve points may be credited also toward the B.D. degree.

Candidates for the A.M. degree in the Graduate Faculties are permitted to offer toward the required year of residence, defined as thirty points, fifteen points taken in courses in Union Theological Seminary when approved by the Dean of the Graduate Faculties and the several departments involved. Work represented by these points may not be counted toward a degree in Union Theological Seminary. Candidates for the Ph.D. in the Graduate Faculties of Columbia University may offer as one of the two required years of residence the B.D. degree of Union Theological Seminary.

Seminary students working under the direction of the department of religious education at the Seminary may become candidates for the degree of Ph.D. through Teachers College. Work toward this degree may include courses both in the Seminary and at Teachers College according to the special field of the student's interest. Members of both Faculties share responsibility for the candidate's work upon his dissertation.

Students who are interested in the Philosophy and History of Religion and who have already undertaken elementary work in this field may offer themselves as candidates for the Ph.D. degree in the History and Philosophy of Religion which is jointly under the jurisdiction of the Department of Philosophy of Columbia University and Union Theological Seminary. Work leading to this degree may be taken either in Union or in Columbia University as the subject matter of investigation may indicate.

Special regulations governing work for the degrees indicated above are printed in the appropriate catalogues published by Union Theological Seminary and Columbia University.

UNIVERSITY EXTENSION

ADMINISTRATIVE BOARD (See page 11)

General Statement. The Statutes of the University define University Extension as "instruction given by University officers and under the administrative supervision and control of the University, either away from the University buildings or at the University, for the benefit of students unable to attend the regular courses of instruction."

Students. Courses in University Extension are planned for two classes of students: (1) men and women who can give only a portion of their time to study and who desire to pursue subjects included in a liberal education of the character and grade of a college or professional school, but without any reference to an academic degree; (2) those who look forward to qualifying themselves to obtain in the future, academic recognition involving acceptance of the work which they may complete satisfactorily in University Extension.

Courses of Instruction. With the approval of the University Council, courses are offered in University Extension which may count for residence credit toward the degrees of Master of Arts and Doctor of Philosophy. Candidates for such degrees are under the jurisdiction of the Faculties of Political Science, Philosophy and Pure Science and are subject to the specific requirements for these degrees which are stated in the divisional announcements of these faculties.

Regular courses of instruction are offered in University Extension which, in many instances, are coordinated so as to form at least the first years of collegiate and professional work, thus providing, in the evening at Morningside Heights and elsewhere, courses in subjects which are generally offered in the freshman, sophomore, and junior years of college, so that students may qualify themselves for admission with advanced standing to Columbia College and Barnard College or other institutions, as candidates for the degrees of Bachelor of Arts and Bachelor of Science.

There are also offered at Morningside Heights in the evening, subjects which are required of students in the Schools of Mines, Engineering, and Chemistry, so that a student may pursue some special line of scientific study or prepare himself for advanced study in these schools. Courses in these schools are open only to those who have had a three-year college course with special attention to mathematics, physics and chemistry or a prescribed pre-engineering course in Columbia College covering two years and one Summer Session. This preliminary collegiate course may be taken in part or in full in University Extension in the evening by students engaged in business during the day.

Evening courses in architecture leading to a certificate are offered at Morningside Heights, which correspond to the courses of the Columbia University School of Architecture.

Evening classes in business are open as individual courses or they form two two-year series of 36 points each and two four-year series of 72 points each, leading to certificates, a Preliminary and a Final certificate in General Business, and a Preliminary and a Final certificate in Accounting. The course in Accounting prepares for the state examinations for the Certificate of Certified Public Accountant. Students in University Extension who have completed the academic requirements for admission to the School of Business and who have passed acceptable business courses in University Extension may receive advanced standing credit in the School of Business for such courses to a maximum of 24 points.

A series of courses intended to equip students for the position of private secretary is also offered. A circular describing these courses will be mailed upon request.

Many courses are offered which aid a student to prepare for the Schools of Business, Dentistry, Law and Medicine or to complete his preparation for Columbia College.

A two-year professional course in optics is offered in coöperation with the Department of Physics for the special training of those who expect to become optometrists.

A special two-year collegiate course of study is offered for young men, graduates of accredited high schools, who are in the employ of fire insurance companies and who wish to make the business of fire insurance their career. Insurance companies interested in the plan assume an optional number of scholarships for which the tuition fee has been fixed at \$275 per year with \$50 annually for books. Lectures and recitations are given in the afternoon and evening so that the students can earn compensation in the forenoon in the offices of the companies.

The School of Library Service offers through University Extension, a regular one-year library school course leading to a certificate.

Teachers College offers in coöperation with University Extension a number of technical courses in the various fields of Practical Arts: *i. e.*, foods, cookery, clothing, household management, nursing education, household chemistry, fine arts, music, physical education, industrial arts, drawing, designing, etc. In many of the courses the instruction is the same as that given in the regular classes of the School of Practical Arts. In other cases, special classes are organized to meet the needs of those desiring instruction in Practical Arts for use in the home.

Teachers College also offers to part-time matriculated students in its School of Education a number of its regular courses at hours which are convenient for teachers. An index of these afternoon, evening and Saturday courses is included in the *Announcement of Teachers College* and in a special circular on extramural courses, both of which may be obtained from the Secretary of Teachers College.

Courses are offered in agriculture for those who desire special work in that subject.

A large number of other courses in varied subjects is given late in the afternoon and on Saturday, which repeat those in liberal studies offered in the schools of the University. These are given in the same manner and often by the same instructors as the regular courses. In most instances credit may be granted by the various schools of the University.

Short courses in dentistry for qualified practitioners are offered at the School of Dental and Oral Surgery in coöperation with University Extension. They are announced in special circulars.

Short courses for qualified graduates in medicine are offered by University Extension at the Columbia-Presbyterian Medical Center, Broad Street Hospital, Neurological Institute, Central and Neurological Hospital, Manhattan State Hospital on Ward's Island, Montefiore Hospital, Mount Sinai Hospital, Reconstruction Hospital, and at Stockbridge, Mass. These courses are described in separate announcements.

University Extension offers a program of college and professional subjects in Brooklyn during the late afternoon and evening at the Seth Low Junior College of Columbia University, 365 Pearl Street.

In response to popular demand, courses of collegiate grade are offered in Newark, New Jersey, in the rooms of the Young Women's Christian Association, 53 Washington Street.

Numerous courses are given at various centers. These are either regular courses of collegiate grade or short lecture courses without academic credit.

Lecture-study courses in certain subjects forming fifteen or thirty lectures alternating with quiz or conference hours are given at Morningside Heights and at centers when requested.

The University Chorus, organized for the study of choral music, is maintained at Morningside Heights, and choral concerts are given during the year.

Home Study Courses. Through University Extension, Home Study courses in a variety of subjects are offered for persons who are unable to attend classes conducted at the University. There are many individuals who, for many reasons, are compelled to postpone their academic work and who are very reluctant to drop it entirely. According to the University's policy of providing a liberal education for all who desire it, these courses have been instituted for the benefit of those who wish, even in this limited manner, to engage in advanced study.

The University, although it does not require previous academic work for admission to Home Study courses, asks each prospective registrant to give satisfactory indication that he or she can pursue further study to advantage, and prospective students are urged to enroll only in those courses for which previous study and training has prepared them and from which they may derive the greatest amount of pleasure and profit.

No points credit toward an academic degree is given for Home Study courses. Upon satisfactory completion of the work prescribed by the instructor, a certificate stating that definite work has been accomplished will be issued by the Registrar of the University.

Enrollment in Home Study courses may begin at any time, but the Department reserves the right to limit the number of courses for which one individual may enroll.

All courses are outlined and carried out under the supervision and direction of members of the staff of one of the departments of the University.

In subjects which lend themselves to club study, arrangements can be made for pursuance of a course by the organization of a Home Study Club.

For information about individual courses or the organization of clubs address: Home Study Courses, Columbia University, New York. A special circular describing the Home Study courses will be sent upon request.

Registration. Students who expect to attend at Morningside Heights are required to register at the office of the Registrar, University Hall. A student in University Extension registers for one session and is required to renew his registration in person at the beginning of the Spring Session.

Matriculated students in the various schools of the University will be allowed to attend courses in University Extension in accordance with the regulations of the several schools; they must, however, register and pay the fees in the same way as other students in University Extension courses.

Fees. All students, matriculated or non-matriculated, admitted to University Extension courses, must pay at the time of registration the fees determined by the Administrative Board. The fees for University Extension courses are determined, as a rule, at the rate of \$10 per point, i. e., for one hour per week of classroom work, or two hours of laboratory or drawing-room work, through one Session. All students must pay a University fee of \$7 for each Session or any part thereof. Students taking six points each Session have the privileges of the Library; men students taking twelve points of academic work, are entitled to the privileges of the University Gymnasium.

Dormitories. The privilege of residence in the dormitories is limited in the case of University Extension men to students in good standing pursuing programs aggregating not less than twelve points each Session. All women students under twenty-four years of age who are not living at home are required to live in a dormitory, or to obtain permission to do otherwise from one of the Advisers of Women in University Extension.

Degrees. Courses in University Extension, approved by the Committee on Instruction in Columbia, Barnard, and Teachers Colleges are credited for matriculated students toward the degrees of A.B. and B.S., toward the diplomas in Teachers Col-

lege, and toward degrees in other professional schools in accordance with the regulations established by the various faculties. The credit given for the various courses will be found in the *Announcement of University Extension*.

Courses in University Extension may also lead to the B.S. degree in General Studies for students who obtain the approval of the Committee of the Council on University Undergraduates.

Courses in University Extension which have been approved by the Faculties of Political Science, Philosophy, and Pure Science and by the Executive Committee of the University Council may be counted in part fulfillment of the residence requirements for the degrees of Master of Arts and Doctor of Philosophy, subject to the rules governing these degrees as defined in the departmental announcements.

Admission. No examination is required for admission to courses offered in University Extension, but students must satisfy the instructors concerned that they can pursue the courses with advantage. It is expected that prospective students in all collegiate and professional courses shall have had a full secondary school education. The courses are open, unless it is otherwise stated, to both men and women.

Location. Intramural collegiate and professional courses are given at Morningside Heights. Extramural courses are given at the Seth Low Junior College of Columbia University, 365 Pearl Street, Brooklyn; the New York Chapter of the American Institute of Banking, Graybar Building, 43d Street and Lexington Avenue; in the rooms of the Young Women's Christian Association, 53 Washington Street, Newark, N. J.; and at centers where there may be sufficient demand.

For detailed information as to the places and hours for these courses, the qualifications for admission, the regulations for registration, candidacy for degrees, diplomas, attendance, and examinations, the fees prescribed, and for a statement of each course offered, see the current *Announcement of University Extension*, and the special circulars announcing courses given at the various extramural centers. These circulars may be obtained without charge upon application to the Secretary of the University.

Institute of Arts and Sciences. The Institute of Arts and Sciences and the Home Study Courses form the non-academic division of University Extension. The Institute of Arts and Sciences was established by action of the Trustees of Columbia University on February 3, 1913. The aim of the Institute is to provide a popular program of general lectures and events of a cultural nature. Meetings are held each evening (except Sunday and holidays) and on occasional afternoons.

The program is planned for busy men and women. Its scope includes single lectures and short series of not over six lectures on history, literature, art, music, geography, science, and on current economic and social problems; it comprises also illustrated travel lectures, recitals, dramatic readings, and vocal and instrumental as well as chamber music concerts.

The program is subscribed for as a whole. The annual subscription of \$10 covers one ticket and \$16 two tickets (to one person at one address) for entire program of approximately 200 lectures, readings, concerts, recitals, etc., throughout the season. The program continues from October to April.

The Institute concert series comprises five outstanding musical events by the world's greatest artists. Tickets for these concerts are available to Institute members at \$5.00 for the series.

The University auditoriums are used. Memberships are accepted at any time and are good for one calendar year from the first of the month nearest the time of enrollment.

The *Institute Magazine* issued monthly, 8 times each year, containing the program for the current month, articles, book reviews, and announcements, is sent to each member. The October issue containing the annual *Announcement* will be mailed upon request.

By reason of these payments, every officer of administration or instruction and his family will receive the benefits and protection provided by the Teachers Insurance and Annuity Association of America in accordance with the contracts thereof.

(b) The University reserves to itself the right to apply to the Carnegie Foundation to authorize exceptions to this rule for special cases which may from time to time arise, and when the Executive Committee of the Carnegie Foundation shall decide that special conditions warrant such an exception this shall relieve the University from further obligation as to these cases.

(f) Officers of administration or instruction as described in this section, and all other officers of the University who wish to secure individual insurance through the Teachers Insurance and Annuity Association of America, are privileged to do so by reason of their appointments in Columbia University.

FELLOWSHIPS, SCHOLARSHIPS AND STUDENT AID

GENERAL REGULATIONS

The following regulations apply, unless the contrary is specifically stated, to the award of all fellowships and scholarships:

In each case application in writing, on a blank prepared for the purpose, must be filed with the Secretary of the University; for fellowships and University scholarships on or before March 1, for other scholarships on or before May 1. Applications and documents received in support thereof later than these dates, or not distinctly indicating the name of the candidate and the fellowship or scholarship for which he applies, may fail of consideration. As an evidence of graduation, a printed certificate is preferable to the formal diploma itself, as there is risk that the latter may be lost or injured in transit.

The appointment is in each case for one year dating from July 1. The fellowship or scholarship is not available for the Summer Session or in University Extension. It may be cancelled at any time if the student fails to maintain a satisfactory academic standard. Candidates will be notified as promptly as possible as to the success of their applications. If the applicant wishes the documents which he has submitted returned to him by mail he should enclose postage for the purpose. Documents will not be preserved for more than one year from the date of application.

Fellows and Scholars are required to register not later than the date specified in the University Calendar; failure to do so may be considered as vacating the fellowship or scholarship.

Unless otherwise provided, all stipends of Fellows and Scholars are paid in semi-annual instalments on the second Wednesday of each Winter and Spring Session.

Fellows and Scholars are required to pay the University, tuition, and degree fees, as they are prescribed by the Statutes.

All Fellows and Scholars, except as hereinafter provided, shall reside in New York City or its vicinity during the academic year, unless permission be granted to study elsewhere. No University Fellow or University Scholar, as such, may pursue a professional or technical course of study during his term.

The conditions upon which the appointment is made are indicated in the following paragraphs.

A list of the fellowships, scholarships, and prizes awarded in Barnard College on the Barnard College foundation and in Teachers College on the Teachers College foundation, will be found on pages 496-497 of this catalogue. A full description of the terms upon which appointments are made will be found in the *Announcements* of these colleges.

UNIVERSITY FELLOWSHIPS

Twelve fellowships, known as 'University Fellowships,' are awarded annually by the University Council at its stated meeting in April to graduates of colleges and scientific schools who show themselves especially fitted to pursue courses of higher study and original investigation. The candidate must give evidence:

(a) Of a liberal education, such as a diploma from a college or scientific school of good repute;

(b) Of decided fitness for a special line of study, such as an example of some scientific or literary work already performed;

(c) Of upright character, such as a testimonial from some instructor.

Every University Fellow will receive an annual stipend of \$1500. He will be required to pay the University and tuition fees prescribed by the Statutes.

A Fellow may be reappointed for reasons of weight, but not for more than two terms of one year each. Vacancies will be filled in the same manner in which original appointments are made.

These fellowships are awarded as honors, and those who are disposed, for the benefit of others or for any other reason, to waive the pecuniary emolument, may do so, and still have their names retained on the list of Fellows. In such cases additional University Fellows may be appointed. ALUMNI FEDERATION OF COLUMBIA UNIVERSITY

Incorporated 1916

The purposes of the Alumni Federation are to advance the interests and promote the welfare of Columbia University and its Alumni. This it endeavors to accomplish by encouraging and assisting efficient organization of Alumni bodies; by forming and assisting new associations and local Columbia alumni clubs in various large cities of the world; by disseminating among Alumni and the general public through an official publication or by moving pictures or otherwise, accurate information about Alumni and University affairs; by providing a recognized channel of communication between students, Alumni, and University officers; by keeping the Alumni informed with respect to undergraduate life and activities; and by providing the machinery to nominate Alumni Trustees, and to collect the annual Columbia Alumni Fund.

All members of the Alumni associations of the various schools maintained by the Trustees of the University if affiliated with the Federation are *ipso facto* School Members of the Federation, and any Alumnus may become a General Member. A payment of \$100, or a multiple thereof, toward the Endowment Fund entitles an Alumnus to be an Endowment Member, which carries life privileges and a life subscription to the *Alumni News*.
